December 5, 2008

Dear Teachers:

This letter is to inform you of the environmental education programs available to your classes through Washita National Wildlife Refuge. These programs are designed to go into the classroom when students are unable to go to the resource. Programs are about 1 hour long, and involve discussion and activities. Emphasis is on migratory birds and the interactions between humans and wildlife. Some of the programs available are listed below. Additional programs can be tailored to fit your needs. All programs are free of charge.

Available programs (more details available upon request):

K - 1st Grade - Nature Discovery

2nd - 3rd Grade – Amazing Animal Adaptations

4th - 6th Grade - Clean Up – It's for the Birds!

7th - 12th – Washita NWR, USFWS Careers,
NEW: Ornithology supplement to HS Zoology

We would like to assist you in any way possible to bring environmental education opportunities to your students. We can create programs especially for your class throughout the year, according to curriculum and student interests. Field trips to Washita NWR are also available in addition to classroom programs. For further information or to schedule a program for your class, please contact Amber Zimmerman at 580/664-2205, or via e-mail at Amber_Zimmerman@fws.gov.

Sincerely,

Refuge Manager
