General Information

Welcome to Valentine National Wildlife Refuge (NWR). The Refuge was established in 1935 to protect a portion of the Sandhills and their wildlife. The unique nature of the Refuge was recognized in 1976 when the Sandhills prairie was designated as a National Natural Landmark.

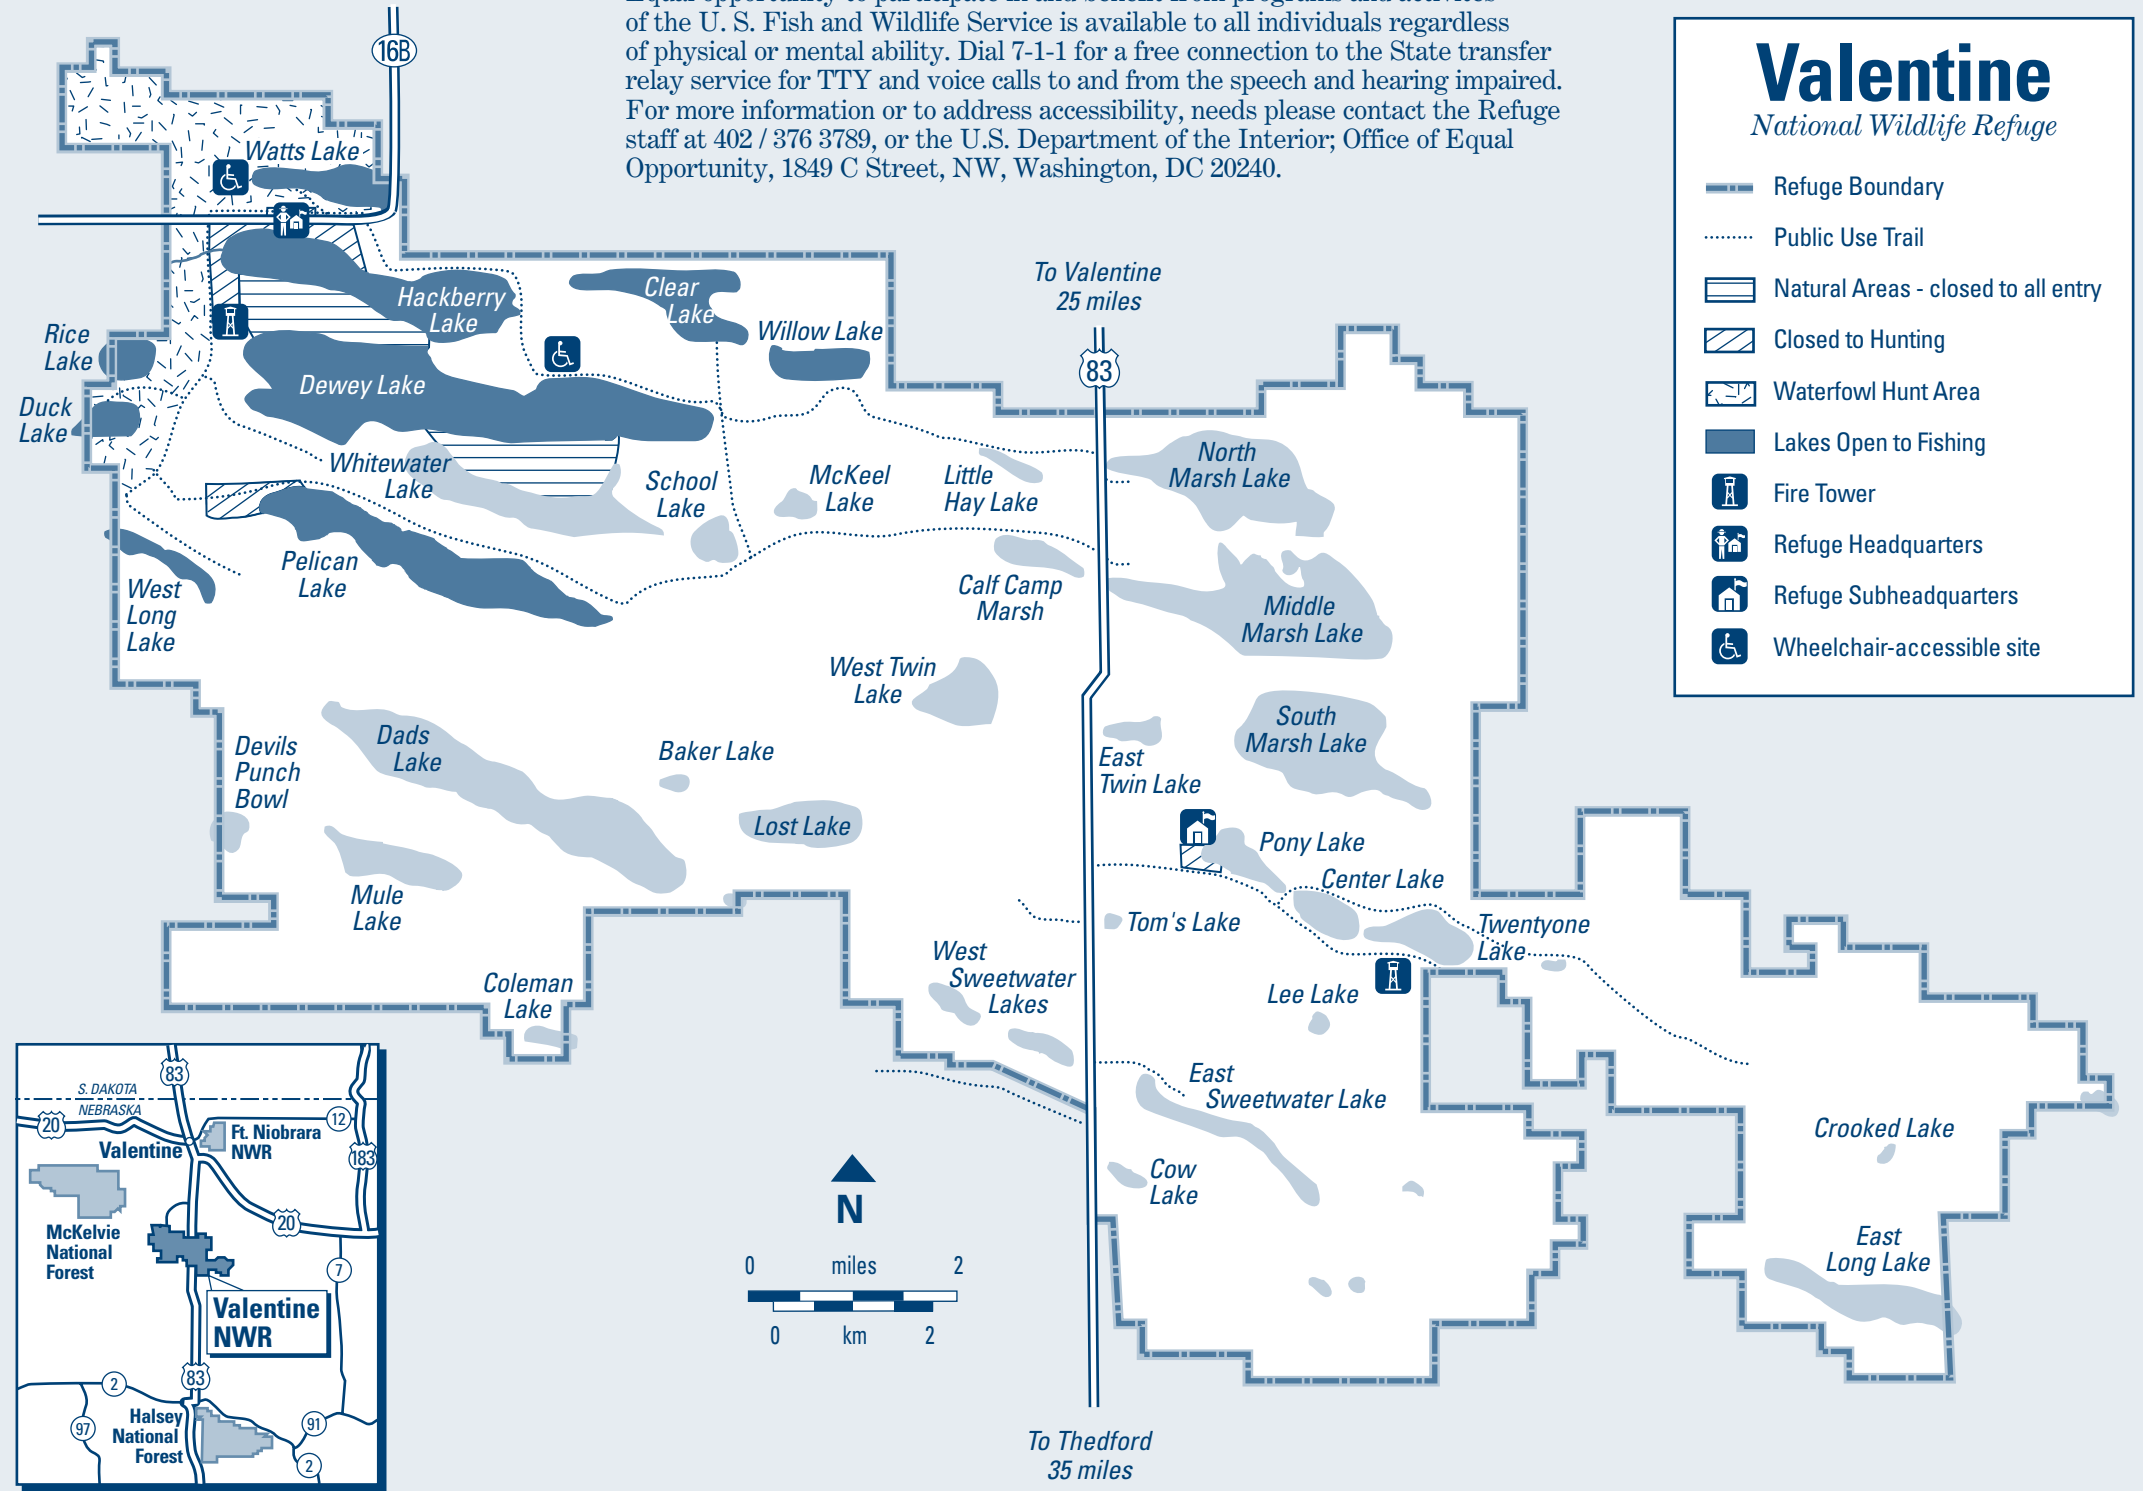

Valentine NWR is one of over 500 refuges in the National Wildlife Refuge System – a network of lands set aside specifically for wildlife. Managed by the U.S. Fish and Wildlife Service, the Refuge System is a living heritage, preserving wildlife and habitat for people today and for generations to come.

The financial base for the Refuge System was firmly established in 1934 through the passage of the Migratory Bird Hunting Stamp Act, more commonly known as the “Duck Stamp” Act. This Act requires waterfowl hunters to annually purchase a migratory bird or duck stamp. Funds collected from duck stamp sales have been used to purchase numerous refuges that provide habitats necessary to sustain a variety of wildlife for both hunters and non-hunters to enjoy.

Accessible Opportunities

Wheelchair-accessible boat docks are located at Watts and Dewey Lakes. People with a special Nebraska Game and Parks Commission permit may shoot game from a vehicle on Refuge public use trails in areas open to public driving.
