

Existing and Final Recommended Boundaries

This draft map was produced by the U.S. Fish and Wildlife Service to show the Service's final recommended boundary changes to the John H. Chafee Coastal Barrier Resources System as directed by Section 4 of the Coastal Barrier Resources Reauthorization Act of 2005 (Pub. L. 109-226).

*The "Existing Boundary" shown on this map was digitized to approximately represent the location of the center of the roughly 80-100 foot thick controlling boundaries shown on the current official CBRS map for the area. The "Existing Boundary" has not been fit to the new underlying base map imagery, and should not be relied on as the official CBRS boundaries for this area. The official CBRS map for this area is available for viewing and download at www.fws.gov/cbra.

Date of Aerial Photography: 2011

JOHN H. CHAFEE COASTAL BARRIER RESOURCES SYSTEM GASPARILLA ISLAND UNIT FL-70/FL-70P (Map 1 of 1)

- Final Recommended System Unit Boundary
