List of Preparers

Writers and Major Contributors

The following individuals contributed directly to the preparation of this CCP document.

Planning Team

Greg Weiler	<i>Refuge Manager</i> , Potomac River Refuge Complex
Daffny Jones	<i>formerly Assistant Refuge Manager</i> , Potomac River Refuge Complex (has since transferred to the Northeast Regional Office)
Nancy McGarigal	<i>Regional Natural Resource Planner</i> , Planning Team Leader, U.S. Fish and Wildlife Service Northeast Regional Office Refuge System
Martin McClevey	<i>Visitor Services Specialist</i> , Potomac River Refuge Complex
John Rohm	<i>District Wildlife Biologist</i> , Virginia Department of Game and Inland Fisheries
Jess Lowry	<i>Mason Neck State Park Manager</i> , Virginia Department of Parks
Meredith Bixby	<i>Assistant Planner</i> , University of Massachusetts-Amherst, Student Intern

Other Service Program Involvement

Joe Witt	<i>Wildlife Biologist</i> , former refuge biologist at Potomac River Refuge Complex (he has since transferred to the National Conservation Training Center). Joe provided input into past and current biological program management.
Hal Laskowski	<i>retired Regional Division Chief of Natural Resources</i> , Biological Monitoring and Inventory Coordinator. Hal evaluated Little Marsh Impoundment and made recommendations on its management.
Susan Guiteras	<i>formerly Regional Refuge Biologist (has since transferred to the Coastal Delaware Refuge Complex)</i> . Susan helped develop the species of concern lists in appendix A.
Julie Study	<i>formerly Regional Visitor Services Specialist (has since transferred to the National Conservation Training Center)</i> . Julie helped coordinate a Visitor Services Review of Mason Neck Refuge.
Bill Jones	<i>Visitor Services Specialist</i> , Coastal Delaware Refuge Complex. Bill participated in the Visitor Services review of Mason Neck Refuge.
Melanie Steinkamp	<i>Mid-Atlantic Coordinator for the Atlantic Coast Joint Venture</i> , U.S. Fish and Wildlife Service Migratory Birds and State Programs. Melanie reviewed the draft CCP/EA.
Albert Spells	<i>Coordinator</i> , U.S. Fish and Wildlife Service Virginia Fisheries Program Office. Albert provided fisheries input and reviewed the draft CCP/EA.
Susan Lingenfelter	<i>Wildlife Biologist</i> , U.S. Fish and Wildlife Service Ecological Services Virginia Field Office. Susan provided information on contaminants in the area and reviewed the draft CCP/EA.

	Jan Taylor	<i>Northeast Regional Refuge Biologist.</i> Jan helped review and improve biological goals, objectives, and strategies, as well as develop monitoring elements.
	Kelly Chadbourne	<i>Assistant Northeast Regional Refuge Biologist.</i> Kelly helped review and improve biological goals, objectives, and strategies, as well as develop monitoring elements.
	Tim Binzen	<i>Historian,</i> U.S. Fish and Wildlife Service Northeast Regional Office. Tim researched and drafted overviews of the archaeological, cultural, and historic resources of both Mason Neck and Featherstone Refuges. These overviews are included as appendix F to this document.
	Les Vilchek	<i>Cartographer,</i> Chesapeake Marshlands Refuge Complex. Les created the maps found throughout this CCP.
	Cynthia Schulz	<i>Project Leader,</i> Virginia Field Office. Cynthia reviewed and approved the Section 7–Endangered Species Act, compliance documentation
	Ethel Eaton	<i>Senior Policy Analyst,</i> Virginia Department of Historic Resources. Ethel reviewed and approved the Section 110–National Historic Preservation Act, compliance documentation.
Other Involvement	Mike Erwin	<i>U.S. Geological Survey Waterbird expert.</i> Mike provided input on managing Little Marsh Impoundment for waterbirds.
	John H. Ghent	<i>USDA Forest Service–Forest Health Protection,</i> Forest Entomologist based out of Asheville, North Carolina. John assessed the potential for gypsy moth infestations at the Potomac River Refuge Complex and made recommendations for reducing forest stocking levels.
	Jeff Cooper	<i>Wildlife Biologist,</i> Virginia Department of Game and Inland Fisheries. Jeff provided input on management for bald eagles, waterbirds, and Little Marsh impoundment.
	David Norris	<i>Wildlife Biologist,</i> Virginia Department of Game and Inland Fisheries. David provided input on management for bald eagles, waterbirds, and Little Marsh impoundment.
	Mark Ingram	<i>Park Ranger,</i> Mason Neck State Park. Mark provided input during the field visits to review Mason Neck Refuge’s biological and visitor service’s programs.
	Lauryn Sacha	<i>Park Ranger,</i> Mason Neck State Park. Lauryn provided input during the field visits to review Mason Neck Refuge’s biological and visitor services programs.
	Jim McGlone	<i>Urban Forest Conservationist,</i> Virginia Department of Forestry. Jim and Terry Lasher prepared the “Forest Health and Condition Inventory and Assessment for Mason Neck National Wildlife Refuge.” We used the information and recommendations outlined in this plan to develop our strategies for forest management and bald eagle conservation for Mason Neck Refuge.

- Terry Lasher** *Assistant Regional Forester, Virginia Department of Forestry. Terry and Jim McGlone prepared the “Forest Health and Condition Inventory and Assessment for Mason Neck National Wildlife Refuge.” We used the information and recommendations outlined in this plan to develop our strategies for forest management and bald eagle conservation for Mason Neck Refuge.*
- Kristen Thrall** *formerly Project Coordinator (has since transferred), U.S. Forest Service, Recreation Solutions Enterprise Team. Kristen and Miles Friend compiled and analyzed all of the responses we received during the public comment period on the draft CCP/EA. Their summary of public comments was the basis for appendix G “Summary of Public Comments and Service Responses on the Draft Comprehensive Conservation Plan and Environmental Assessment for Elizabeth Hartwell Mason Neck and Featherstone National Wildlife Refuge” in this CCP.*
- Miles Friend** *Content Analyst, U.S. Forest Service, Recreation Solutions Enterprise Team. Miles and Kristen Thrall compiled and analyzed all of the responses we received during the public comment period on the draft CCP/EA. Their summary of public comments was the basis for appendix G “Summary of Public Comments and Service Responses on the Draft Comprehensive Conservation Plan and Environmental Assessment for Elizabeth Hartwell Mason Neck and Featherstone National Wildlife Refuge” in this CCP.*
- Phil Sczerzenie** *Environmental Consultant, Mangi Environmental Group*
- Mark Blevins** *GIS Specialist, Mangi Environmental Group, Inc.*
- Meghan Morse** *Analyst, Mangi Environmental Group, Inc.*
