

# Watersheds Adjoining Oklahoma's National Wildlife Refuges and National Fish Hatchery

These watersheds were delineated using 11 digit Hydrologic Unit Code (HUC) watersheds. All watersheds adjacent to National Wildlife Refuges or National Fish Hatcheries are included in the delineation, as well as those 11 digit HUC watersheds within 10 miles of a Refuge/Hatchery. Please note that not all 11 digit HUC watersheds that feed into delineated areas are included, and effects within those watersheds outside the boundaries shown also could impact these installations.
