

OFFICE OF THE SCIENCE ADVISOR WEB CONFERENCE SERIES

U.S. Fish and Wildlife Service

Thursday March 15th, 2012 2:30-4:00 PM Eastern

Because science is always evolving, the U.S. Fish and Wildlife Service Office of the Science Advisor (OSA) Web Conference Seminar Series is designed to provide the latest cutting-edge scientific information and research. This series also highlights key OSA priorities, such as science integrity, the FWS Climate Change Strategy, Landscape Conservation Cooperatives, and Strategic Habitat Conservation. This program is being facilitated by the USFWS's National Conservation Training Center (NCTC).

“Overview of the USGS Core Science Systems Mission Area and Summary of the NBII Closure”

Thursday, March 15th, 2:30-4:00 PM Eastern

*Kevin Gallagher, Ph.D.
Associate Director
USGS Core Science Systems*

Description:

This presentation provides an overview of the Core Science Systems (CSS) Mission Area of the U.S. Geological Survey (USGS). CSS delivers nationally-focused Earth-system-science and information-science programs that provide fundamental research and data underpinning all Mission Areas of the USGS. CSS conducts basic and applied research, provides a data and information sharing framework, and provides technical expertise in standards and methods. This presentation also will include a summary of the closing of the National Biological Information Infrastructure (NBII).

YOU MUST REGISTER TO JOIN THIS WEBINAR:

To register, go to:

<https://doilearn.webex.com/doilearn/k2/j.php?ED=137027892&UID=1126311367&HMAC=0c2b3e222939602fde659d10a86863ac3bb24181&RT=MiMxMQ%3D%3D&FM=1>

Once submitted, your name will be added to the registry for the webinar and you will receive an email with instructions on how to join the webinar via WebEx platform.

If you cannot attend the webinar it will be posted approximately 1-2 weeks after the presentation is given and posted on the Office of the Science Advisor Webinar page:
