

Willow Beach National Fish Hatchery March 2014 Monthly Report

No fish were stocked this month.

Mark Olson, Tom Frew, Giovanni Cappelli and Andrew Flaten attended seven hour safety training at Bill Williams Refuge. The training was conducted by Aerosol Monitoring & Analysis, Inc.

Jason Woodland

Willow Beach NFH had its annual fish health inspection. Jason Woodland and Dave Hampton from the Dexter Fish Unit Conducted the inspection.

Dave Hampton

One tour was conducted this month for the Las Vegas Corvette Club. Twenty four corvettes came to the hatchery and 45 people enjoyed the tour. Many of the guests in the tour have lived in Las Vegas for years and had never visited the hatchery.

Las Vegas Corvette Club

314 visitors signed the guest registry.

A new volunteer, Robbie Simons, started this month; Mr. Simons is a resident of

Henderson, NV and commutes to Willow Beach a couple days a week to help us out.

Maintenance activities included: The flood control gabion was completed this month; built screens for A & B bank re-circulating systems; replaced domestic water pressure valve and associated plumbing and had a spray in bed liner installed in the F350 pickup.

Finished Gabion Project

Achii Hanyo Native Fish Rearing Facility

Fish Biologist, Alison Verkade, resigned from the Service this month leaving a vacancy at Achii Hanyo. Staff from Willow Beach are rotating in on a weekly basis to fill the vacancy.
