Why Care About Air? Air Quality for Educators Workshop!

Teaching Kentucky Core Academic Standards through the lens of Air Quality!

How do you teach about something you can't see, taste, or feel? Join us for a fun day of hands-on environmental education geared at making the abstract world of air quality more tangible, helping students make the connection between personal actions and the air we breathe. Whether you are a classroom teacher, 4-H or Scout leader, or homeschool parent, this workshop will provide you with activities and resources that will make air quality come alive for your students.

Materials (copies provided) are geared towards 4th through 8th grade students, but those who work with other age levels are also welcome.

This workshop is sponsored by Wolf Creek National Fish Hatchery, Kentucky Division for Air Quality and Kentucky Environmental Education Council.

Wolf Creek National Fish Hatchery is proud to sponsor educational workshops that help our community learn more about our incredible natural heritage. For information on other programs at the hatchery, or how you can be involved as a volunteer, please contact us!
