

2011 Southwest Alaska Salmon Science Symposium: Understanding Habitat and the Science of Sustainability

at the

William A. Egan Civic and Convention Center

(555 W. Fifth Avenue, Anchorage, Alaska)

Featuring Drs. Thomas Quinn and Daniel Schindler

School of Aquatic and Fishery Sciences, University of Washington

APRIL 13 , 2011

Public Presentation (7-9pm)

Drs. Quinn and Schindler will present their research on biocomplexity and fisheries sustainability (featured in the June 2010 issue of Nature)

APRIL 14, 2011

Morning Session (8am-noon)

Drs. Quinn and Schindler and others will present research findings from SW Alaska and discuss these findings in the context of biocomplexity, fisheries sustainability, ecosystem resiliency, and climate change.

Afternoon Session (1-5pm)

*A panel including Drs. Quinn and Schindler, and representatives from the Alaska Department of Fish and Game, U.S. Fish and Wildlife Service, Bristol Bay Science and Research Institute, and University of Alaska Fairbanks will discuss the question: **What should the direction of future salmon research projects be in SW Alaska?***

Sailing for Salmon - Exhibit Opening Reception and Presentation (7-9pm)

Join us after the symposium at the Anchorage Museum at the Rasmuson Center for:

"Sailing for Salmon: 125 Years of Commercial Fishing in Bristol Bay"
