Here's what I found for Linda's exercise. All of this activity is occurring on NPS lands though, not within the NWRS.

COMMERCIAL HARVESTING PERMIT CONDITIONS

This Commercial Harvesting Permit covers activities in waters administered by Merritt Island National Wildlife Refuge (NWR) and Canaveral National Seashore (Mosquito Lagoon, north Indian River Lagoon, and north Banana River.) Commercial harvesting of seafood products from these waters is authorized with the purchase of this permit, together with applicable Federal, state, and local licensing requirements. The permit fee is \$150.00 and is valid from October 1st through September 30th, annually. Each individual harvesting, handling, or transporting seafood products from these waters must obtain and carry this permit. Commercial activities covered under this permit include, but are not limited to crabbing, clamming, oysters, fishing, and harvesting shrimping for commercial purposes. Commercial Harvesting Permits are issued at Canaveral National Seashore's headquarters office.

Permit Conditions:

- The Federal government, its agents, and employees, cannot be held liable for property damage, bodily injury, or death caused by the permittee's use of park lands in connection with the permit, and permittee agrees to pay the National Park Service for any costs incurred associated with any claims.
- Commercial harvesting is allowed in the Indian River, Banana River, and Mosquito Lagoon except for Kennedy Space Center security areas. All impounded waters of Merritt Island NWR and Canaveral National Seashore (waters inside a dike) are closed to commercial harvesting.
- A valid Saltwater Products License (SPL) is required to obtain a permit.
- Oysters and clams must be taken by hand and/or hand rake. Mechanical devices are not permitted.
- Certain waters can be closed to shell fishing harvesting periodically. It is your responsibility to keep informed of these changes. The Florida Department of Agriculture publishes maps depicting current closures and area status is available 24 hours a day on their website: www.floridaaquaculture.com/SEAS_maplinks/82.htm, or by calling 850-488-5471.
- Nighttime boat launching (between sunset and sunrise) is permitted only at Bairs Cove, Beacon 42 ramp, and the Public Boat Ramp on A1A at Canaveral National Seashore in New Smyrna Beach.
- Air thrust boats and personal watercraft are prohibited from operation in all Merritt Island NWR waters, and all waters of Canaveral National Seashore (excluding the Intracoastal Waterway {ICW}, from Marker 13 south to Haulover Canal).

- Numerous manatee protection zones are found within the waters of the Refuge and Seashore. All protection zones are clearly identified with signs. Heed all signs and abide by posted limits. Boats are restricted to Idle Speed in Bairs Cove and slow speed/minimum wake in Haulover Canal. All waters of Mosquito Lagoon are regulated under State and Federal laws. A Manatee Sanctuary is established in the Banana River and motorized vessels are excluded from most of these waters. See [Merritt Island NWR Sports Fishing Regulations](#) for more information.
- Permit holder must comply with all Federal and State firearm laws.
- Two "Pole & Troll" Zones exist in Mosquito Lagoon and are delineated with buoys. Internal combustion motors must be shut off within the zones (except in the posted channels) and vessels drafting more than 12 inches at rest must not enter. Boats may operate internal combustion engines only in the posted channels but electric trolling motors may be used anywhere within the zones.
- Monthly catch logs must be maintained and a copy provided to Canaveral National Seashore at the end of each month. (Do not submit a quarterly or annual compilation of monthly reports.)
- Violation of permit regulations or state laws may result in the suspension or revocation of your commercial harvesting permit.
