Subject: Fwd: REMINDER: status update on Southeast Farallon Island Mouse Eradication Project
Date: Wednesday, April 23, 2014 5:41:42 PM
Importance: High

Hi Richard - This was a big oversight on my part to not have included you in earlier invite! But I'm hoping you'd be available tomorrow (Thursday) to join our briefing in your capacity as Regional IPM Coordinator?! See below...thanks!

Subject: REMINDER: status update on Southeast Farallon Island Mouse Eradication Project

Reminder that we'll be providing a briefing this Thursday at 1-3 pm.

Tracy - Can you please reserve a conference room for us?

Also for anyone who cannot join us at 1-3 pm, we could arrive earlier in the morning if you'd have time for a one on one update, so please let me know if that's an option & we'll plan accordingly!

Thanks,
Anne

Greetings all - We would like to schedule an in-person meeting with you all in either late April or early May to brief you on the current status of **Farallon Islands NWR's Southeast Farallon Island House Mouse Eradication Project**. We are at a critical point in the decision-making process (selecting a proposed action) and we need your feedback! We'd like to review the following topics:

- general project overview
- public comments on Draft EIS
- project partners, supporters and opponents
- mitigating risks to non-target species
- pros vs cons and contingency planning
- selecting a preferred alternative - request R8 & HQ concurrence
- briefings for RD/DRD; Refuges Chief/Deputy Chief; Director...
- schedule for completing the FEIS
- permitting requirements (MBTA, CZM, etc.)
- funding status
- next steps

This would be an internal FWS-only meeting. Refuge staff will travel to the Regional Office in Sacramento, and we expect we'll need at least 1 hour of your time, ideally 2 hours for full open discussions (or we can split out by program, if desired). Please use this link to provide your availability (2-hour time slots provided)...I'll check this link at the end of next week to select the best date.
