---

We have a different newer version we are working on with new language, but this is the one from the last meeting...

Hi Colin,

It sounds like we are going to move ahead with drafting some language to try to make the DEIS and Species Report documents consistent regarding ASP. Would you be able to take a first crack at this? Please let me know if you have any questions, and please let me know how I can help.

Thanks,

Angela

Per our conversation last week, Fris would like us to look at the DEIS and see if we can suggest edits that would make the two documents consistent. Can you talk to Colin and see if he can suggest edits to the area of the document where he found discrepancies. I don't expect him to fish everything in the EIS, but maybe we can provide some suggestions/examples in a few key areas. We also need to look at our document and see where we might need to make edits - especially to point out that the eradication project will be beneficial to ASP.

Thanks
