Cay,

We are moving forward with the mouse eradication project EIS for the Farallon NWR. We hope to have the ROD signed by December 2012. Would you want to be involved in the effort? The only listed species on the island is the Steller's sea lion. If you want to learn more, you can attend the briefing next Wed. (18th) from 1:30 - 3:00. It will be at the RO. I won't be there but there will be a host of folks that will be able to answer all your questions.

I just want to make sure you know about it.

<Mendel
