Subject: Luckenbach contingency request for Farallones mouse eradication project
Date: 08/14/2012 04:35 PM
Attachments: [Luckenbach contingency summary budget Jul2012.xlsx](#)

Hi All,

I've attached a contingency funding request evaluation and budget for the Luckenbach Natural Resource Damage Assessment. The evaluation requests funding from the Coast Guard's National Pollution Fund Center (NPFC) for four of the Luckenbach restoration projects including the Farallones project. In fact, the bulk of the request is for the Farallones work. This contingency request is to go out under cover signed by the Authorized Official (Ren). The Luckenbach Trustee Council, which includes FWS, NOAA and CDFG, is signing a resolution supporting the evaluation. The cover from Ren will go with the resolution and the attached.

We developed the evaluation in conjunction with the other Trustee agencies, the Solicitor's office and through discussion of the issues with NPFC. Please review the last five pages of the word document that discuss the Farallones project and let me know if you have any comments.

Thank you for your attention to this matter.
