The 9822-0618 cost doc looks great! My only question is: do we need to include the 16.84% DOI overhead on the rollup sheet, or are we leaving that off as we did with FY2010?

doc, FY11, draft

Janet, Jennifer et al,

Apologies again for the delay, but here is draft of FY11 9822-0618 (Farallon) cost doc. I used the FY11 Sacramento bio day rate provided by Karl Smith. Please take a look and let me know how it looks. According to the summary I have, expenditures in FY11 were \$211,248.37. Cost doc with bio day rate is currently \$211,225.26, a difference of \$23.11. I tried to make the numbers match more closely, but since nearly all charges were FWS salary and contracts, this was hard to do. If Karl would like to take a crack at getting the claim closer to our actual expenditures, I can send him the spreadsheet with all of the expenses.

Once we get your review, I will finalize the cost doc claim and sign.

Thanks.

Gerry
