Subject: Re: Briefing on status of Farallon Islands EIS
Date: 01/03/2012 03:09 PM

Gerry,
After consulting with my superiors it sounds like they're fine with me being the sole contact for our Region. I work from my home in Menlo Park, so coming to your office in Fremont for a briefing is convenient. How does 0900 on the 24th sound?
Conrad

Dear Conrad,

We are nearly done with a draft alternatives development matrix that will be used to determine which methods have value to be developed as alternatives in the draft Farallon Islands mouse eradication EIS. We would like to get your review and comments on this. We will send you an electronic copy when it is complete.

If you would like, we could also come by your office to provide you and any other applicable CDFG staff with a briefing on the process. Alternatively, we could simply do a conference call. If you would like this, preferred date would be between January 23-31. If interested, please let me know what dates/times during that period would work for you and names and contact for any other staff who should be invited? We should plan about 1.5 hours for the briefing and questions.

I will be out of the office next week but will try to get back to you next week or by Jan. 10.

Thank you and Happy New Year!

Gerry
