Subject: Revised Hazing Trial Plan
Date: 11/05/2012 05:16 PM

Ahoy Team Farallon!

Please find attached the latest revision of the **Trial Plan** for your review, along with a recently developed **Draft Monitoring Protocols**.

If you have any additional comments on the **Trial Plan** itself, or the **Safety Plan** sent to you last week,

please get your comments to Maddy by next Thursday, Nov. 15th.

The monitoring protocols will undergo some review this Thursday afternoon by PRBO and IC, so Maddy and I would appreciate any input you have on those as soon as possible.

The Trial Plan is not for distribution beyond the Hazing Team, but I will also be sending the Trial Plan out this week to Mike Ziccardi and Kyra Mills at OWCN, Dennis Orthmeyer of USDA-APHIS Wildlife Services and Laird Henkel and Holly Gellerman at CDFG-OSPR, for their review and comments.

Thanks for all your thought, loans, funds and efforts at making this trial an effective use of our time and funds.

Making the trial function as planned is a key step toward restoring a more natural and healthy (and mouse free) Farallon ecosystem!

Looking forward to your comments and talking to you and seeing you all soon!

Dan Grout
