

**Trinity River Restoration Program
Decision Support System Workshop
Agenda**

When: March 29, 30 and 31, 2016

Where: Trinity Alps Performing Arts Center, Weaverville, CA

Desired Outcomes:

The goal of the Trinity River Basin Decision Support System Workshop is to advance the development and use of a decision support system for the Trinity River Restoration Program (TRRP). The workshop will consist of oral presentations and panel discussions related to four key elements: 1) providing background on DSS and example applications, 2) communicating the status of DSS development for the TRRP and how it can be used in the near term to support decision making, 3) identifying and initiating an approach to resolve key organization and administrative challenges to DSS development and 4) initiating next steps recommended by the Science Advisory Board for implementation of a DSS such as a workplan, schedule, and identifying task leaders.

Time	Agenda Item	Presenter(s)
Tuesday Mar 29th
