

Guide for Using the Adobe Acrobat Version of the Final Bison and Elk Management Plan and Environmental Impact Statement

The *Final Bison and Elk Management Plan and Environmental Impact Statement* is presented in two volumes. Volume 1 (the *Final Environmental Impact Statement*) consists of nine files, and Volume 2 (*Comments and Responses on the Draft Environmental Impact Statement*) consists of seven files. Files are consecutively numbered. The files are fully bookmarked (click on the “Bookmarks” tab), and each file is linked to the preceding file and the next file. The table of contents for each chapter is linked to all of the text headings shown; maps, figures, and tables are also linked.

Map pages in Volume 1 are linked to the specific map files, and the map will open in a new window in Adobe Acrobat Reader. When you close the map, you will go back to the parent file. Hyperlinks are indicated by blue boxes.
