

Appendix R2.14

BLM Land Designations, Classifications,
Allocations, and Lands with Wilderness
Characteristics

Appendix R2.14 BLM Land Designations, Classifications, Allocations, and Lands with Wilderness Characteristics

This appendix presents data supporting the analysis in Volume IV, Chapter IV.14. This appendix includes 6 tables that present:

- BLM Special Designations within Available Development Areas (No Action) or DFAs in each alternative
- BLM Designations with Wilderness Characteristics within Available Development Areas (No Action) or DFAs in each alternative
- Areas of Critical Environmental Concern (ACEC) within Available Development Areas (No Action) or DFAs in each alternative
- SRMAs on BLM Lands by Alternative
- ACEC Units and Disturbance Caps on BLM LUPA lands by Alternative
- BLM Existing Multiple Use Classes by Alternative

Note on Rounding of Data. The following general rounding rules were applied to calculated values: values greater than 1,000 were rounded to nearest 1,000; values less than 1,000 and greater than 100 were rounded to the nearest 100; values of 100 or less were rounded to the nearest 10, and therefore totals may not sum due to rounding. In cases where subtotals are provided, the subtotals and the totals are individually rounded. The totals are not a sum of the rounded subtotals; therefore the subtotals may not sum to the total within the table.

Table R2.14-1**BLM Special Designations within 5 miles of Available Development Areas (No Action Alternative) or DFAs within the Plan Area by Alternative**

BLM Special Designations	No Action Alternative	Preferred Alternative	Alternative 1	Alternative 2	Alternative 3	Alternative 4
Wilderness Areas	44 Areas 1,670,000 acres	20 Areas 340,000 acres	13 Areas 115,000 acres	33 Areas 561,000 acres	16 Areas 161,000 acres	19 Areas 300,000 acres
