Hello Jennifer – just a quick update to let you know my progress on drafting the Aquaculture CD. This morning I reviewed the DNR decision document (whew), your 2018 comment letter and 2019 comment letter. The thorough bird impact analysis in your 2019 comment letter looks like it will be basis for ultimate CD finding. I still need to look at the Tribe aquaculture plan and Corps document before I pelt you with questions, probably on Friday. Will you be available for a call that day?

Also, going forward would you please email using [benharrison0554@msn.com](mailto:benharrison0554@msn.com) rather than my Gmail address. Also, my cell number is 503-913-2578 for texting and conversation.
