Subject: Dungeness NWR - Special Use Permit request for Jamestown Tribe's oyster farm within Dungeness Bay

Hi Jennifer –

Please see the attached letter which requests your consideration of a special use permit for activity on federally controlled refuge areas related to Jamestown S'Klallam Tribe's oyster farm operations. We were very glad to learn last week that this special use permit development can be completed as a parallel process to the USACE permit acquisition. It is my understanding that this letter formally begins the process and I believe that you already have all of the materials associated with the proposed shellfish farm operations. Please reach out directly to Liz Tobin to furnish any of the application materials or if you have clarifying questions. Thank you, Hansi
