

Please respect the following signs

Millions of people visit national wildlife refuges each year. The impact of human activity, if not regulated, can degrade these wild lands. Signs help control recreational activities and respect private property while protecting natural resources on the refuge.

This sign and yellow paint clearly marks all refuge property. **It is your responsibility to know where the property lines are and hunt within the boundaries.**

This area is closed to all entry. No entering, hunting or sightseeing is permitted. No roads or trails beyond this sign are open to the public. Some of these signs may have dates indicating the length of time the area is closed.

This area is closed to **all** vehicles, and horseback riding. Entry is only permitted by foot or bicycle.

This sign marks areas closed to all hunting.
