General Introduction

Wapanocca National Wildlife Refuge, established in 1961, is one of 568 national wildlife refuges administered by the U.S. Fish and Wildlife Service. The primary objective of the refuge is to provide habitat for migratory birds. The refuge is located in Crittenden County, Arkansas.

Hunting, fishing, wildlife observation and photography, environmental education, and interpretation are priority public uses of the National Wildlife Refuge System. These wildlife-dependent uses are carefully managed on Wapanocca National Wildlife Refuge to ensure they are compatible with refuge purposes and provide safe, high-quality, low-impact, recreational opportunities.

Users of the refuge must obey all signs pertaining to visitation, access, and public use regulations. All public uses, including hunting and fishing, are conducted in accordance with state and federal regulations as supplemented by the following special refuge regulations.

Access and Vehicle Use

Wapanocca National Wildlife Refuge visitors may enter the refuge no earlier than 4 am and must leave by one hour after sunset except for those engaged in raccoon/opossum hunting at night and possessing the appropriate equipment and required hunting license. Hunters trailing or retrieving deer after hours should call the refuge office at 870/343 2595 and leave a message stating their name, phone number and the general area in which they are searching for or retrieving deer.

Access into the refuge is through an automatically time-controlled gate that opens at 4 am and closes at 8 pm. If you are locked in the refuge or need assistance, call 911 on a cell phone and you will be connected to the Sheriff's office.

The refuge is closed to ALL other entry and public use Nov. 4-5 and Nov. 18-29, 2023 during the Quota Youth Gun and Quota Gun Deer Hunts. Only the Quota Youth Gun Deer and Quota Gun Deer Hunt permit holders, respectively, are allowed to enter or use the refuge during these hunts and only for the purpose of deer hunting and incidental take of beaver, muskrat, nutria, coyote, striped skunk, fox, bobcat, river otter, mink, and feral hogs.

Portions of the refuge are closed as waterfowl sanctuary (see map) and are closed to ALL entry and public use, including hunting and fishing, from Dec. 1 through Feb. 28 annually.

Roads may be closed at any time road conditions or other administrative needs warrant. A locked gate or other barrier, road closed sign, or no vehicle sign means the road is closed to ALL vehicle travel, including bicycles and ebikes, but not to foot travel unless signed otherwise.

All vehicles, bicycles and ebikes must stay on maintained graveled roads or established parking areas. All vehicles must meet all applicable federal and state requirements regulating the use of a licensed motor vehicle. Modified vehicles equipped with oversize tractor lug tires are prohibited.

Motor vehicle speed limit is 25 mph unless otherwise posted.

ATVs are prohibited, except for use by mobility-impaired hunters possessing a Special Use Permit issued by the Refuge Manager.

Horses/mules are prohibited.

Airboats, personal watercraft (jet-ski, etc), and hover craft are prohibited.

This is a unit of the National Wildlife Refuge System, a network of lands and waters managed for the benefit of wildlife and people.
