Hi Bradd,

Thank you for the opportunity to review the document. Attached you will find comments from the South Coast Region's fisheries program. We look forward to working with the service towards the recovery of this important southern California endemic fish.

Subject: draft Santa Ana sucker Recovery Plan - peer review

John,

The Service recently completed the draft recovery plan for the Santa Ana sucker. The notice of availability published November 24, 2014 and it is available for review.

Based on your expertise and years of experience with this species, I was wondering if you would be available to conduct peer review. It would be a great benefit to us and would contribute to developing a stronger document for Santa Ana sucker Recovery.

I look forward to hearing from you soon. If you have any questions, please feel free to call me at the number below.

Sincerely,

Bradd
