Re: State of Alabama: Coastal Consistency Determination
Deepwater Horizon Early Restoration Actions for Implementation in the Public Lands of Gulf State Park in
Baldwin County, Alabama and Bon Secour National Wildlife Refuge, Baldwin & Mobile Counties, Alabama
ADEM Tracking ID: 2013-020-NRDA

Dear Ms. Willis,

The ADEM has reviewed NOAA's determination of coastal consistency for the following projects:

1. Improving Habitat Injured by Spill Response: Restoring the Night Sky, and
2. A Comprehensive Program for Enhanced Management of Avian Breeding Habitat Injured by Response in the Bon Secour National Wildlife Refuge (Refuge).

The ADEM **concurs** with NOAA's determination that the proposals are consistent with the enforceable policies of the Alabama Coastal Area Management Program to the extent that these activities have been defined in the October 22, 2012 correspondence.

If you have any questions regarding this matter, please contact J. Scott Brown by email at jsb@adem.state.al.us or by phone at (251) 432-6533.

Sincerely,

A handwritten signature in black ink, appearing to read "S. Jenkins", is written over a horizontal line.

Steven O. Jenkins, Chief
Field Operations Division
