Hi David,

Per our email discussion, we are submitting this informal consultation request via email. We have attached our consultation letter for the Elmer's Island Access project. We are requesting concurrence for the determinations described in the attached letter. The letter has been signed by Ben Frater.

The final BE form for this project is attached below. I've also attached a template response letter, but please feel free to respond via your preferred method.

Thanks, and let me know if you have any questions.

Erin: Give me a call at your convenience. I am in the process of drafting our concurrence letter, but I need to discuss the No Effect determination for the manatee.
