

long open tailrace discharging into the third level canal; and, (6) 4.8-kilovolt generator leads that connect directly to the 4.8-kilovolt area distribution system; and (7) appurtenant facilities. The project is estimated to generate 2,119,000 kilowatt-hours annually.

m. Copies of the applications are available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support. Copies are also available for inspection and reproduction at the address in item h above.

All filings must (1) bear in all capital letters the title "COMMENTS", "REPLY COMMENTS", "RECOMMENDATIONS," "TERMS AND CONDITIONS," or "PRESCRIPTIONS;" (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person submitting the filing; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, recommendations, terms and conditions or prescriptions must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). Agencies may obtain copies of the applications directly from the applicant. Each filing must be accompanied by proof of service on all persons listed on the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b), and 385.2010.

You may also register online at <http://www.ferc.gov/docs-filing/subscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

n. *A license applicant must file no later than 60 days following the date of issuance of this notice:* (1) A copy of the water quality certification; (2) a copy of the request for certification, including proof of the date on which the certifying agency received the request; or (3) evidence of waiver of water quality certification.

o. *Procedural schedule:* The applications will be processed according to the following schedule. Revisions to the schedule will be made as appropriate.

Commission issues draft EA, December 2018

Comments on draft EA, February 2019
 Commission issues final EA, June 2019

Dated: July 16, 2018.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9980-78-OW]

Notice of Availability of the Deepwater Horizon Oil Spill Louisiana Trustee Implementation Group Final Restoration Plan/Environmental Assessment #4: Nutrient Reduction (Nonpoint Source) and Recreational Opportunities and Finding of No Significant Impact

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: In accordance with the Oil Pollution Act of 1990 (OPA) and the National Environmental Policy Act (NEPA), the Federal and State natural resource trustee agencies for the Louisiana Trustee Implementation Group (Louisiana TIG) have prepared the Final Restoration Plan and Environmental Assessment #4: Nutrient Reduction (Nonpoint Source) and Recreational Opportunities (Final RP/EA #4). The Final RP/EA #4 describes and, in conjunction with the associated Finding of No Significant Impact (FONSI), selects twenty-three preferred project alternatives considered by the Louisiana TIG to improve water quality by reducing nutrients from nonpoint sources and to compensate for recreational use services lost as a result of the *Deepwater Horizon* oil spill. The Louisiana TIG evaluated alternatives under criteria set forth in the OPA natural resource damage assessment (NRDA) regulations, and evaluated the environmental consequences of the restoration alternatives in accordance with NEPA. The selected projects are consistent with the restoration alternatives selected in the *Deepwater Horizon* oil spill Final Programmatic Damage Assessment and Restoration Plan/Programmatic Environmental Impact Statement (PDARP/PEIS). The Federal Trustees of the Louisiana TIG have determined that implementation of the Final RP/EA #4 is not a major federal action significantly affecting the quality of the human environment within the context of NEPA. They have concluded a FONSI is appropriate, and, therefore, an Environmental Impact

Statement will not be prepared. The purpose of this notice is to inform the public of the approval and availability of the Final RP/EA #4 and FONSI.

ADDRESSES: Obtaining Documents: You may download the Final RP/EA #4 and FONSI at any of the following sites:

- <http://www.gulfspillrestoration.noaa.gov>

- <http://www.la-dwh.com>

Alternatively, you may request a CD of the Final RP/EA #4 and FONSI (see **FOR FURTHER INFORMATION CONTACT**). You may also view the document at any of the public facilities listed at <http://www.gulfspillrestoration.noaa.gov>.

FOR FURTHER INFORMATION CONTACT:

- Louisiana—Joann Hicks, 225-342-5477.
- EPA—Doug Jacobson, 214-665-6692.

SUPPLEMENTARY INFORMATION:

Introduction

On April 20, 2010, the mobile offshore drilling unit *Deepwater Horizon*, which was being used to drill a well for BP Exploration and Production, Inc. (BP), in the Macondo prospect (Mississippi Canyon 252-MC252), experienced a significant explosion, fire, and subsequent sinking in the Gulf of Mexico, resulting in an unprecedented volume of oil and other discharges from the rig and from the wellhead on the seabed. The *Deepwater Horizon* oil spill is the largest off shore oil spill in U.S. history, discharging millions of barrels of oil over a period of 87 days.

The Trustees conducted the natural resource damage assessment for the *Deepwater Horizon* oil spill under the Oil Pollution Act of 1990 (33 U.S.C. 2701 *et seq.*). Under OPA, Federal and State agencies act as trustees on behalf of the public to assess natural resource injuries and losses and to determine the actions required to compensate the public for those injuries and losses. OPA further instructs the designated trustees to develop and implement a plan for the restoration, rehabilitation, replacement, or acquisition of the equivalent of the injured natural resources under their trusteeship, including the loss of use and services from those resources from the time of injury until the time restoration to baseline (the resource quality and conditions that would exist if the spill had not occurred) is complete.

The *Deepwater Horizon* oil spill Trustees are:

- U.S. Environmental Protection Agency (EPA);
- U.S. Department of the Interior (DOI), as represented by the National

Park Service, U.S. Fish and Wildlife Service, and Bureau of Land Management;

- National Oceanic and Atmospheric Administration (NOAA), on behalf of the U.S. Department of Commerce;

- U.S. Department of Agriculture (USDA);

- State of Louisiana Coastal Protection and Restoration Authority (CPRA), Oil Spill Coordinator's Office (LOSCO), Department of Environmental Quality (LDEQ), Department of Wildlife and Fisheries (LDWF), and Department of Natural Resources (LDNR);

- State of Mississippi Department of Environmental Quality;

- State of Alabama Department of Conservation and Natural Resources and Geological Survey of Alabama;

- State of Florida Department of Environmental Protection and Fish and Wildlife Conservation Commission; and

- State of Texas Parks and Wildlife Department, General Land Office, and Commission on Environmental Quality.

On April 4, 2016, the Trustees reached and finalized a settlement of their natural resource damage claims with BP in a Consent Decree approved by the United States District Court for the Eastern District of Louisiana. Pursuant to that Consent Decree, restoration projects in the Louisiana Restoration Area are now chosen and managed by the Louisiana TIG. The Louisiana TIG is composed of the following Trustees: CPRA, LOSCO, LDEQ, LDWF, LDNR, EPA, DOI, NOAA, USDA.

Background

A Notice of Availability of the *Deepwater Horizon* Oil Spill Louisiana Trustee Implementation Group Draft Restoration Plan and Environmental Assessment #4: Nutrient Reduction (Nonpoint Source) and Recreational Opportunities (Draft RP/EA #4) was published in the **Federal Register** on April 20, 2018. The Louisiana TIG hosted a public meeting on April 24, 2018, in New Orleans, and the public comment period for the Draft RP/EA #4 closed on May 21, 2018. The Draft RP/EA #4 proposed twenty-three restoration projects, evaluated in accordance with OPA and NEPA. The Louisiana TIG considered the public comments received on the Draft RP/EA #4 which informed the Louisiana TIG's analyses and selection of the restoration projects in the Final RP/EA #4. A summary of the public comments received and the Trustees' responses to those comments are included in Chapter 7 of the Final RP/EA #4.

Overview of the Final RP/EA #4

The Final RP/EA #4 is being released in accordance with OPA NRDA regulations found in the Code of Federal Regulations (CFR) at 15 CFR 990, and NEPA (42 U.S.C. 4321 *et seq.*). In the Final RP/EA #4, the Louisiana TIG selects the following preferred project alternatives:

Nutrient Reduction (Nonpoint Source):

- Nutrient Reduction on Dairy Farms in St. Helena and Tangipahoa Parishes
- Nutrient Reduction on Dairy Farms in Washington Parish

- Nutrient Reduction on Cropland and Grazing Lands in Bayou Folse
- Winter Water Holding on Cropland in Vermilion and Cameron Parishes Plus Agricultural Best Management Practices

Recreational Use:

- Pass-a-Loutre Wildlife Management Area Crevasse Access

- Pass-a-Loutre Wildlife Management Area Campgrounds

- Grand Isle State Park Improvements
- Chitimacha Boat Launch
- Sam Houston Jones State Park

Improvements

- Montegut S1/S2 Access/Pointe-aux-Chenes Fishing Piers
- WHARF Phase 1
- Bayou Segnette State Park

Improvements

- Atchafalaya Delta Wildlife Management Area Access
- Atchafalaya Delta Wildlife Management Area Campgrounds
- Rockefeller Piers/Rockefeller

Signage

- St. Bernard State Park
- Cypremort Point State Park

Improvements

- The Wetlands Center
- Recreational Use Improvements at Barataria Preserve in Jefferson Parish, Jean Lafitte National Historical Park and Preserve, Barataria Unit
- Des Allemands Boat Launch
- Middle Pearl
- Improvements to Grand Avoille Boat Launch
- Belle Chasse

The Louisiana TIG has examined the injuries assessed by the *Deepwater Horizon* Trustees and evaluated restoration alternatives to address the injuries. In the Final RP/EA #4, the Louisiana TIG presents to the public its plan for providing partial compensation for lost recreational use services and reducing nutrients from nonpoint sources in the Louisiana Restoration Area. The selected projects are intended to continue the process of using restoration funding to reduce nutrients

(nonpoint source) and restore recreational use services lost as a result of the *Deepwater Horizon* oil spill. The total estimated cost of the selected projects is \$47.5 million. Additional restoration planning for the Louisiana Restoration Area will continue.

Administrative Record

The documents comprising the Administrative Record for the Final RP/EA #4 and FONSI can be viewed electronically at <http://www.doi.gov/deepwaterhorizon/administrativerecord>.

Authority

The authority for this action is the Oil Pollution Act of 1990 (33 U.S.C. 2701 *et seq.*), its implementing NRDA regulations found at 15 CFR part 990, and NEPA (42 U.S.C. 4321 *et seq.*).

Dated: July 2, 2018.

Benita Best-Wong,

Acting Principal Deputy Assistant Administrator, Office of Water.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9980-87-OP]

National Environmental Justice Advisory Council; Notification of Public Meeting, Public Teleconference and Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notification of public meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act (FACA), Public Law 92-463, the U.S. Environmental Protection Agency (EPA) hereby provides notice that the National Environmental Justice Advisory Council (NEJAC) will meet on the dates and times described below. All meetings are open to the public. Members of the public are encouraged to provide comments relevant to the specific issues being considered by the NEJAC. For additional information about registering to attend the meeting or to provide public comment, please see "REGISTRATION" under **SUPPLEMENTARY INFORMATION**. Due to a limited space, seating at the NEJAC meeting will be on a first-come, first served basis. Pre-registration is highly suggested.

DATES: The NEJAC will convene a public face-to-face meeting beginning on Tuesday, August 14, 2018, starting at 6:00 p.m., Eastern Time. The NEJAC meeting will continue August 15-16,
