

## National Domestic Listing Workplan: Fiscal Years 21-25

### 5-Year Workplan (January 2021 Version)

**Key to Action Types:**

12M/PLPCH – 12-month finding on a petition to list a species. If listing is warranted, we generally intend to proceed with a concurrent proposed listing rule and proposed critical habitat designation, if critical habitat is prudent and determinable.

Discretionary Status Review/PLPCH – Status review undertaken by discretion of the Service. Results of the review may be to propose listing, make a species a candidate for listing, provide notice of a not warranted candidate assessment, or other action as appropriate.

PLPCH – For species that are already candidates for listing, a proposed listing determination would either propose the species for listing or provide notice of a not warranted finding. We generally intend to propose critical habitat designations concurrent with proposed listing rules, to the extent prudent and determinable.

PCH – For species that are already listed, a proposed critical habitat rule will propose to designate critical habitat for the species, if we find critical habitat is prudent.

**Note: Bolded entries where the species' common name is accompanied by an \* have court-ordered dates associated with them.**

Package Name	Common Name	Action Type	Lead FWS Legacy RO	DOI Unified Region	Priority Bin Ranking or LPN	Planned FY	Range	Scientific Name
	Burrington jumping-slug	12M/PLPCH	R1	9	5	FY21	OR, WA	<i>Hemphillia burringtoni</i>
