

Significant Changes – FMH – 2019

General:

- Website addresses and links updated
- Updated list of acronyms near Table of Contents
- Updated policy and guidance references throughout the document
- Grammatical edits were made throughout the document to improve flow and clarity without modification to the text

Chapter 1 - 8:

- No significant changes

Chapter 9- Planning:

- Several grammatical changes were made to improve flow and clarity without modification to the intent.
- Added language about new direction from DOI regarding Environmental Assessments (EA) and Environmental Impact Statements (EIS).
- Added language about maintaining a valid Fire Management Plan (FMP) during the Comprehensive Conservation Plan (CCP) revision process by simply adding a new signature page to the FMP.
- Rearranged language around table 9-1.

Chapter 10- Preparedness:

- Several grammatical changes were made to improve flow and clarity without modification to the intent.
- Edited Lightning Detection System section and added new weblinks.
- Several suggested edits will be forwarded to an inter-disciplinary task group (NFOST/FMT) that will re-write Chapter 10 for 2020.

Chapter 11- Incident Management:

- A few grammatical changes were made to improve flow and clarity without modification to the intent.
- Several bullets were added under the BAR funding section.
- Reference was changed because BAER policy and guidance was moved from 620 DM 3 to 620 DM 7.

Chapter 12:

- No significant changes

Chapter 13- Firefighting Training and Qualifications:

- Added new section titled Position Recertification.
- Added clarifying language about Certifying Officials delegating authority to IQCS account Managers
