E. CAPTIVE-BRED WILDLIFE REGISTRATION (U.S. Endangered Species Act)

Please use the following application for all CBW requests: new or renewals.

This is a new application.

This is an amendment or renewal application.

All applicants must complete **Part 1** of the application. A CBW Registration remains valid for five years and may be renewed once for a total validity of ten years, after which the CBW Registration number will be retired and you must apply for a new CBW Registration. If a renewal application is submitted thirty days or more prior to the expiration of the CBW Registration, the applicant may continue to conduct previously authorized activities during the renewal process. However, if the application is submitted fewer than thirty days prior to expiration, activities must cease at the time the registration expires until the renewal process is completed.

For new applications and amendments, complete **Part 2** of the application. You may renew your CBW once after 5 years, but after a CBW registration has been valid for 10 years, you must submit a complete new application responding to all questions.

To renew your CBW (it has been less than 10 years since you submitted a completely new application), complete **Part 3** of this application.

Electronic submission of inventories, photographs, and receipts: Some applications contain extensive inventories and /or a large number of photographs or receipts. You may provide electronic versions of the documents. Such a submission will assist the processing of your application since it may reduce data entry by the U.S. Fish and Wildlife Service. If you wish to provide information electronically, once you have received an application number via the e-mailed acknowledgment letter, e-mail your information to permits@fws.gov. Be sure to include the application number provided in the acknowledgment e-mail that will be sent to you when we receive your application.

I will be submitting documents electronically.

Part 1: All Applicants Should Complete:

The Division of Management Authority annually distributes a list of Captive-Bred Wildlife (CBW) Registration permittees to all CBW registration holders. The list facilitates the exchange of parental stock among registered breeders and includes permittees that operate as individuals, as well as those that are business entities. For businesses and other organizations holding CBW registrations, including sole proprietorships, the list includes name, permit number, address, and species held by each permittee. However, the records for individuals holding CBW registrations are contained in a Privacy Act (5 U.S.C. 552a) system of records. Therefore, only the name, species, permit number, and state of residence will automatically be included on the list. The complete address will be included only upon authorization from the individual permittees.

If you are **not** a business or organizational entity, and are applying for the CBW registration as an individual, please provide **one** of the following statements (**Note:** if you collect funds for any wildlife purpose, you are a business):

I, [your name] of [facility name] authorize the U.S. Fish and Wildlife Service to include my complete address in its CBW registration list and to release this information to other CBW holders or the public, if requested. I would also like the Service to use the following address on the CBW registration list: [indicate either your mailing address or facility address as identified in your application].

Same address as on page one.

Different address:

Signed _____ Date _____

OR

I, [your name] of [facility name] **do not** authorize the U.S. Fish & Wildlife Service to include my complete address in its CBW registration list. Since my contact information will not be made available to parties interested in cooperating with other CBW holders in breeding programs, I intend to use the following method to communicate and facilitate exchanges with other interested CBW holders:

Signed _____ Date _____

1. Name and address where you wish the permit to be mailed, if different from page 1. If you would like expedited shipping, please enclose a self-addressed, pre-paid, computer-generated, courier service airway bill. If unspecified, all documents will be mailed via the U.S. Postal Service.
2. Who should we contact if we have questions about the application (name, phone number, and e-mail)?
3. Disqualification factor. A conviction, or entry of a plea of guilty or nolo contendere, for a felony violation of the Lacey Act, the Migratory Bird Treaty Act, or the Bald and Golden Eagle Protection Act disqualifies any such person from receiving or exercising the privileges of a permit, unless such disqualification has been expressly waived by the Service Director in response to a written petition. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?

No Yes

If you answered "Yes" to Question 3, provide: a) the individual's name; b) date of charge; c) charge(s); d) location of incident; e) court; and f) action taken for each violation. Please be aware that a "Yes" response does not automatically disqualify you from getting a permit.

4. Provide copies of any license or registration under the Animal Welfare Act regulations of the U.S. Department of Agriculture [9 CFR 2] (if required) and/or any State license or registration required to maintain or breed the species requested in Part 2 or Part 3 below. If available, provide a copy of your last two (2) USDA AWA inspection reports.
5. The exact location(s), including address(es), where the wildlife requested in this application will be maintained. If more than one location exists, list all that apply (**Note:** You must report any change in address or location of facilities to the Division of Management Authority within 10 days).
6. Provide a current inventory, including those out on loan, for each of the ESA-listed species you are requesting to include or have already been approved to hold (if currently holding a valid CBW registration) on your CBW registration.
7. A description of the qualifications of the individuals who will care for the animals, including the number of years' experience with this species or similar species, and names of current caretakers.

Part 2: New Application, Amendment, or Renewal of a CBW which is older than 10 years:

FOR EACH SPECIES BEING REQUESTED for inclusion in a registration, whether a new application or amendment, complete each of the following questions. Signify that you have read each question by writing "N/A" if not applicable. If submitting hard copy pages, please indicate the species and the application question number you are addressing.

8. The scientific name (genus, species and, if applicable, subspecies) and common name of the species.
9. The name, address, and CBW registration number of the person(s) or institution(s) from whom you plan to acquire the wildlife. If currently unknown, state if there is an organized breeding program that you are involved with or if you have communicated with other breeding organizations.

10. Provide a specific description of how your proposed activities are going to facilitate captive breeding for conservation purposes of this species, **including your long-term goals for your breeding program and intended disposition of any progeny.**

11. Provide documentation or a complete description showing how your captive population is being managed to maintain its genetic vitality. If you do not currently maintain sufficient specimens of each species requested to maintain the genetic viability of the species, you must participate in an organized breeding program. Please indicate this program and provide documentation describing the objectives, goals, and current efforts of the program.

12. If your activities include the holding of surplus animals (i.e., no longer needed in the organized breeding program and will no longer be bred) for an organized management program, document how your acquisition of such wildlife will relieve crowding at the locations from which the wildlife will be obtained, and thereby assist the breeding program for the species involved. Provide documentation that you are a participant in an organized breeding program where the holding of surplus wildlife has been identified as a necessary objective of the breeding program. Provide a description of how you will restrict/control breeding at your facility.

13. For each requested species, provide a description of your experience in maintaining and propagating the requested species or similar species, including:
 - a. The number of years you or the facility has/have maintained the requested species or similar species.

 - b. During the past five years, how many (by species, by year) successful births/hatches of each requested species or similar species have occurred at your facility? How many survived beyond 30 days?

 - c. How many mortalities of requested species or similar species have occurred at your facility during the past five years? What were the causes? What measures have you taken to prevent future mortalities?

 - d. A brief resume for all senior animal care staff or personnel that will be working with or maintaining each species requested.

14. Provide a detailed description, including size, construction materials, and protection from the elements, as well as photographs and detailed diagrams (no blueprints, please) clearly depicting your existing facilities, including space for future progeny, where the wildlife will be maintained.

Part 3: Applications to Renew CBW registrations that are 5 years old or less:

All CBW registrants are required to submit an annual report on activities conducted at the facility over the previous year, as well as a current inventory of all species covered under the registration. If you have already responded to the following questions in your annual report, please note that in your answer to the question.

15. Have there been any changes to your operation such as reconstruction or new construction, new facilities, or other physical changes? If yes, please describe them.

16. Have there been any changes to senior staff or personnel changes that would affect how your operation handles the species included in the registration? If yes, please describe these changes.

17. Have there been any changes to your inventory that have not been reflected in your annual reports or the current inventory list provided to the Service? If yes, please describe these changes.

18. Is there any additional information that you believe the Service should be aware of in regards to your operation, facilities, inventory, or business model?

***** Please note:** If you have a change of mailing address, you must notify the Service within 10 days. If your facilities move, you will need to apply for an amendment of your CBW registration.
