

WHAT YOU SHOULD KNOW ABOUT A FEDERAL MIGRATORY BIRD TAXIDERMY PERMIT

A Federal Migratory Bird Taxidermy Permit will authorize you to mount or otherwise perform taxidermy work on migratory birds, their parts, nests or eggs, belonging to someone else. The conditions of a Federal Taxidermy Permit are very specific. You should review Title 50 Parts 10, 13, 20 (subparts A-B, D-J) and 21.24 of the Code of Federal Regulations (CFR). **You are responsible for reviewing and understanding these regulations before you request and accept a permit.** These regulations can be found on our website at: <http://www.fws.gov/permits/ltr/ltr.html>. Below is a review of several sections pertinent to a Federal Migratory Bird Taxidermy Permit.

1. Can I mount migratory game birds with a Federal Taxidermy permit?

Yes. You can receive and mount migratory game birds taken and possessed in accordance with applicable Federal and State hunting regulations. All such birds must be properly tagged as required by 50 CFR 20.36. The tag may be removed during taxidermy operations but must be retained and reattached after mounting, and must remain attached until the specimen is delivered to the owner. (See 50 CFR 21.24(d)(2))

2. Can I mount and sell captive-reared migratory waterfowl?

Yes. You can sell properly marked, captive-reared migratory waterfowl that you have acquired from a propagator who has a Federal Migratory Bird Waterfowl Sale and Disposal permit. The propagator must give you a completed Notice of Transfer or Sale of Migratory Waterfowl form (Form 3-186) at the time of the transfer and you must maintain this form in your files. An additional copy of this Form 3-186 must accompany the mount when the bird is sold. **You may not sell captive-reared migratory waterfowl that have not been mounted, nor may you sell any migratory bird that has been taken from the wild.** (See 50 CFR 21.24(c)(2))

3. Can I mount migratory birds other than waterfowl?

Yes. Protected nongame birds such as songbirds, hawks, and owls can be legally brought to a taxidermist by game wardens, Federal agents, or holders of appropriate State and Federal permits. Once mounted, these birds can be legally possessed only by public scientific and educational institutions or individuals or facilities that have a valid Special Purpose Possession Dead permit. Personal possession of nongame birds is prohibited. English sparrows, common starlings, and feral pigeons (rock doves) are not native to the United States and are not protected by Federal law. (See 50 CFR 21.11)

4. Do I need a State permit to perform taxidermy on migratory game birds?

Your permit is not valid unless you also are in compliance with State requirements. This means that if your State requires you to have a permit to perform taxidermy on migratory game birds, you must hold a valid State permit in order for your Federal permit to be valid. It is your responsibility to make sure you comply with State permit requirements.

5. Will anyone inspect my records or taxidermy operation?

By accepting a Federal Taxidermy Permit, you authorize an agent of the Service to enter your premises at any reasonable hour to inspect the wildlife you hold, your books and records. (See 50 CFR 13.47)

6. What is required to transfer my permit to a new location?

Any address or location changes or other circumstances that affect your permit must be reported to your Regional Migratory Bird Permit Office in writing within 10 days so your permit can be amended. (See 50 CFR 13.23)

7. How do I renew my permit?

A renewal letter or form will be sent to you at least 60 days prior to the expiration of your permit. If you wish to renew your permit, you must return the completed renewal to your Regional Migratory Bird Permit Office at least 30 days prior to the expiration of your permit and include a copy of your current State license, if required. If we receive your renewal request at least 30 days prior to the expiration of your permit, your permit will remain valid beyond the expiration date until a decision on your renewal is made. If we receive your renewal request fewer than 30 days prior to expiration of your permit and we are unable to process your request before the expiration date, your permit will expire and you will no longer be covered for your activity. If you allow your permit to expire before requesting renewal, you may be required to submit a new application. (See 50 CFR 13.22 and 13.11(c))

You must apply as an individual (complete section A, not section B, on page 1 of this application) and be at least 18 years old. The conditions of a Federal taxidermy permit are very specific. Please read "What You Should Know Before Applying for a Federal Taxidermy Permit" and the pertinent regulations before you sign and submit your application.

Please provide the following information in the space provided or on a separate sheet of paper with your responses numbered according to the questions below. You should be as thorough and specific as possible in your responses. Incomplete applications will be returned. 1. Is the facility where taxidermy services will be provided located at the physical address provided on page 1, section C.1., of this application?
 Yes No If "no," provide the location (street address or legal description). This must include all drop-off and pick-up locations.

2. Describe your taxidermy experience. This should include your experience mounting migratory game birds or other wildlife and any training or schools you have attended.

3. Anyone who will be assisting you with the permitted activities or acting as your agent must either have their own Federal migratory bird permit for the activity or be identified by you, in writing, as a subpermittee under your permit. They may also require a State permit. Subpermittees must be at least 18 years old. (50 CFR 13.21(c)) Have you or any of the owners of the business, if applying as a business, been convicted, or entered a plea of guilty or nolo contendere, forfeited collateral, or are currently under charges for any violations of the laws mentioned above?
