

**Science Tools & Procedures Subcommittee of the
Wind Turbine Guidelines Advisory Committee**
Teleconference – October 17, 2008

Draft Summary

Participants:

Dale Strickland	Rene Braud	Dave Stout
Taber Allison	Andy Linehan	Rachel London
Sam Enfield		Abby Arnold

- ✓ Dale Strickland provided a brief overview of the September 15th NREL Methods & Metrics Workshop for those who weren't present on the last teleconference. At the workshop, a simplified framework based on Adaptive Resource Management, Structured Decision making and Ecological Risk Assessment was discussed.
- ✓ At the suggestion of the Science and Tools Subcommittee a table of contents (TOC)/Overview of Recommendations for the updated Methods & Metrics was drafted based on this framework.
- ✓ Because the entire subcommittee wasn't present on the teleconference, it was agreed that the subcommittee would have a full discussion of the products the subcommittee is developing (outline of recommendations, flow chart, power point presentation) at the face-to-face subcommittee meeting on October 21st.

NEXT STEPS

- Dale and Taber agreed to edit the flowchart and the outline of recommendations (previously referred to as Table of Contents) for discussion by subcommittee at their meeting on Tuesday, October 21st in Arlington, VA.
- Dale is drafting a power point presentation that will help to inform the FAC on the history of the development of the tiered framework, to be reviewed and finalized at the October 21st subcommittee meeting.
- Subcommittee will meet face-to-face, and with Landscape/Habitat and Existing Guidelines subcommittees to discuss the draft outline of recommendations incorporating the tiered framework on October 21st.
