

Elephants need your help!

100,000 elephants were **killed** in Africa Between 2010 and 2012.

They died to supply the illegal ivory trade.

We must stop the poaching.

We must stop the trafficking.

In November of 2013, the U.S. Fish and Wildlife Service crushed **six tons** of illegal ivory to make a **statement** to the world.

Now we need **your** help.

Submit your design proposal for how we can transform this crushed ivory to **memorialize** the elephants that have died, **educate** the world about the dangers of buying ivory,

and **crush** the illegal ivory trade.

Submit your design proposal by 11:59 AM EST March 31, 2015.
