Hi Mike,

Please see attached RDT Staff Highlights for February 4. Please let me know if you have any edits/changes and if or you would like me to distribute them.

Thank you,

Tamar

Tamar Kavaldjian-Liskey

Acting Chief of Staff
U.S. Fish and Wildlife Service
Southeast Region, Regional Director's Office
Mobile: (404) 434-0903

Weekly RDT Staff Highlights – February 4, 2019

Vision for the Southeast Region:

"Together we will connect lands and waters to sustain fish, wildlife and plants by being visionary leaders, bold innovators and trusted partners, working with and for people."

Shout Outs To:

NWRS employee Eric Johnson, Forester for the Central Arkansas NWR Complex, selected by the National Wildlife Refuge Association as the 2018 National Employee of the Year. Eric was recognized among all NWRS employees across the country for his outstanding achievements in developing the first Spatial Habitat Management Plan for the NWRS and innovative approaches to managing afforested habitats in the Lower Mississippi Alluvial Valley.

The Friends of the Tennessee NWR Complex, selected by the National Wildlife Refuge Association as the 2018 National Friends Group of the Year. The Friends of the Tennessee NWR Complex is dedicated to promoting the conservation of natural resources for Tennessee NWR and Cross Creeks NWR located along the Kentucky and Barkley Lakes west of Nashville, Tennessee.

The Gulf Restoration Office for completing environmental compliance for 88 projects located in the Gulf of Mexico watershed during 2018. The projects are being led by all five Gulf States, the Service, National Park Service, United States Geological Survey, National Oceanic and Atmospheric Administration, and United States Department of Agriculture. The regulations included are the Endangered Species Act, National Environmental Policy Act, Coastal Zone Management Act, Coastal Barrier Resources Act, and National Historic Preservation Act.

Species/Collaborative Conservation:

- On January 3, Ben Frater represented the Federal Trustees at a Deepwater Horizon NRDA Louisiana Trustee Implementation Group public meeting regarding the Draft Restoration Plan and Environmental Assessment 1.1 for Queen Bess Island Restoration.
- On December 21, the State of Mississippi completed acquisition of approximately 1,500 acres of target habitats in the Grand Bay NWR and Grand Bay National Estuarine Research Reserve. This project is a component of the Deepwater Horizon NRDA Mississippi Trustee Implementation Group's Grand Bay Land Acquisition and Habitat Management project.

Habitat Management:

- Santee NWR (SC) removed a total of 400 feral pigs for the year.
- Piedmont NWR (GA) planted 500 white oak and northern red oak seedlings.
- Cache River NWR (AR) acquired a \$32,000 grant from the Arbor Day Foundation to plant 161,800 hardwood seedlings on 372 acres of newly acquired marginal croplands.
- In December and January, Realty staff completed four fee title acquisitions totaling 501 acres, purchased a 712-acre conservation easement, and currently are in the final stages of closing on an additional four fee title acquisitions totaling 485 acres.

- Prescribed fires were conducted on four NWRs in four states: Carolina Sandhills NWR (SC), Mississippi Sandhill Crane NWR (MS), Okefenokee NWR (GA), and St. Marks NWR (FL). Total acreage burned exceeded 650 acres and there were over 7,400 Twitter views of the burn notification tweets.
- McLain and Odegard at Carolina Sandhills NWR (SC) cleared debris from 63 miles of fire lines, disked 66 miles of fire lines, raked 68 red-cockaded woodpecker trees in 10 prescribed fire units, and prepared 22 prescribed fire units totaling 5,565 acres for burning operations.
- On January 30, a seal on an abandoned mine in Buchanan County, Virginia, apparently failed, releasing large amounts of potentially contaminated water into Upper Elk Creek. The mine water had been treated in the past for high iron levels and pH issues. The Kentucky Ecological Services Field Office is working closely with partners to obtain more information on any impacts from the mine failure.

Recreation/Outreach:

- Staff from the Arthur R. Marshall Loxahatchee NWR, in partnership with Florida Fish and Wildlife Conservation Commission (FWC) and Palm Beach County Parks and Recreation, hosted 67 youth and adult members of the Phi Beta Sigma Fraternity, a leading African-American fraternity that the Service formally partnered with through a MOU in 2014. Members split into four rotating groups where they enjoyed an afternoon of kayaking, fishing, archery, and a non-native snake capture demonstration, learning about the importance of the Everglades ecosystem and NWRS.
- J.N. “Ding” Darling NWR recently welcomed a new Spanish-speaking Visitor Services intern. Elizabeth Preciado from Sacramento State University is completing a 10-week program and will receive college credit for her internship. Fortunately for us, Elizabeth will be staying a full 6 months. She comes from a bilingual household with Spanish being her first language, and she will be a great asset to Ding Darling NWR in helping with outreach programs in the Hispanic community.
- Merritt Island NWR (MINWR), in partnership with the Brevard Nature Alliance, sponsored the 22nd annual Space Coast Birding and Wildlife Festival from January 23-27. Approximately 3,000 people attended the Festival, enjoying birding and photography field trips at both MINWR and the St. Johns NWR.
- Crystal River NWR staff hosted almost 4,800 visitors to the Three Sisters Springs unit during the Crystal River Manatee Festival. During the event, visitors could see several hundred manatees in the springs and in the sanctuary outside the springs.
- Lower Suwannee NWR staff participated in the Inaugural Flatwoods Fire Festival in Gainesville, Florida. This very successful and well-attended event (more than 1,000 people) exposed a completely new segment of the public, including many families, to the benefits of prescribed fire to kick-off the Prescribed Fire Awareness Week in Florida. Activities included live burns, equipment demos, kid’s activities, live music, and over 40 exhibitors from government agencies and nonprofit organizations.
- Black Bayou Lake Conservation Learning Center is undergoing a major upgrade thanks to Friends group fundraising and Visitor Facility Enhancement (VFE) funds. With a new alligator exhibit scheduled to be completed and delivered at the end of February, there has been great community interest and support in the upgrades and we hope to have a grand opening event in April.

- Okefenokee NWR's historic Floyds Island cabin was struck by a tree. Staff will assess damage to the cabin to determine if salvageable. The cabin is on the National Register of Historic Places and has been a favorite camping spot of visitors since it opened in 1937.
- A national outreach document is being developed for the U.S Air Force and Service's Natural Resources Conservation Partnership. Regional Ecological Services and Headquarters External Affairs offices are coordinating. Marshall Williams has notified External Affairs ARD Jeff Fleming about the development and coordination.

Permitting/Law Enforcement:

- The Service is working to secure a 30-35-day extension for completion of the East Collier County Multi-species Habitat Conservation Plan Environmental Impact Statement due to the recent lapse in appropriations. The requested timeline would move the next Departmental briefing from early March to early April, and target June or early July 2019 for completion of the document.

Monitoring/Science:

- Field offices have done a great job so far in completing APG recovery plan revisions; a total of 63 species have been submitted to Headquarters to date, with 81 species remaining. Due to the lapse in appropriations, Headquarters has revised the Federal Register publication date for the last batched notice, which will now be split into two notices on April 15 and May 3. Revisions are due to the Regional Office on February 8, and all signs indicate we will be 100% successful in achieving the APG goal of all recovery plans having quantitative criteria for what constitutes a recovered species by the end of Fiscal Year 2019.
- On December 21, Public Law 115-358 was enacted, adopting 35 revised maps produced by the Service depicting 59 Coastal Barrier Resources System (CBRS) units in Delaware, Florida, North Carolina, and South Carolina, constituting the largest legislative update to the CBRS since 1990. Fifty-seven of these units were mapped through the Service's Digital Mapping Pilot Project, and two of these units (Florida Units P31 and P31P) were mapped through a separate effort to correct errors and add eligible undeveloped areas to the CBRS. The Service will post updated maps online and update the boundaries in the CBRS Mapper as soon as possible.

Please take a look at the new format for the weekly staff notes. These are the topic areas that we will report FAC weekly submissions in so when you send notes up here, please indicate which heading to put them under. If you aren't sure, just send them and we will put them where most appropriate.

Thanks and please continue to submit.

Allan

Weekly RDT Staff Highlights – February 18, 2019

Vision for the Southeast Region:

"Together we will connect lands and waters to sustain fish, wildlife and plants by being visionary leaders, bold innovators and trusted partners, working with and for people."

Shout Outs To:

Frank Simms, Federal Wildlife Zone Officer from North Carolina, for serving as an excellent Acting Deputy Chief of Refuge Law Enforcement for the month of January.

Volunteers at Sam D. Hamilton Noxubee NWR (MS). A tree fell across the most popular boardwalks on the refuge, breaking parts of the boardwalk. Within days, volunteers made a few needed repairs, and once again the boardwalk is available for use.

Angela Trahan (Louisiana ES), the project manager for a Coastal Wetlands Planning project developed and sponsored by Louisiana ES was approved for funding under the Protection and Restoration Act by the Louisiana Coastal Wetlands Conservation and Restoration Task Force (CWPPRA). The 213-acre New Orleans Landbridge Shoreline Stabilization and Marsh Creation project was approved for \$21.2 million construction funding. It will benefit an American Bird Conservancy designated "Important Bird Area," and restore habitat for the black rail (candidate for listing), saltmarsh topminnow (petitioned species), and Joint Venture species - mottled duck, king rail, wood stork, little blue heron, lesser snow goose, diamondback terrapin, reddish egret, American oystercatcher, and glossy ibis.

Kevin Roy (Louisiana ES), the project manager for the 336-acre Grand Bayou Ridge and Marsh Restoration project was funded for \$3.5 million for engineering and design. The project was approved for funding under the Protection and Restoration Act by the Louisiana Coastal Wetlands Conservation and Restoration Task Force (CWPPRA). It will restore habitat for the black rail (proposed candidate species), golden-winged warbler, saltmarsh topminnow (petitioned species), little blue heron, cerulean and Swainson's warblers, glossy ibis, and seaside sparrow.

At-Risk:

- From March 5-8, 2019, the Overview of Structured Decision Making (SDM) and Species Status Assessment (SSA) Course-Workshop hybrid is being hosted by the U.S. Fish and Wildlife Service at the Conway ES Field Office. Registered participants include staff from Ecological Services, National Wildlife Refuge System, the Arkansas Natural Heritage Commission, and the Arkansas Game and Fish Commission. The course will introduce participants to SDM & SSA and the interplay between the two processes.

Species/Collaborative Conservation:

- A workshop entitled "Conserving Caribbean Shorebirds and their Habitats" was held this week at the Cabo Rojo NWR (PR). This international workshop was put on by Manomet, Birds Caribbean and Sociedad Ornitológica Puertorriqueña (SOPI). The 45 participants came from Caribbean Islands such as Dominica, Antigua, Barbados, St.

Croix, and Puerto Rico, among others. Field work was conducted at several coastal locations, including the Cabo Rojo and Laguna Cartagena NWRs.

- Red River NWR (LA), partnering with the Natural Resources Conservation Service, began rehabilitation work on 1,000 acres of moist soil units, to include levee work, water control structure replacement, and removal of unwanted vegetation/trees.
- Staff from Dale Bumpers White River NWR (AR), along with staff from Arkansas Game and Fish Commission (AGFC), hosted the 4th annual youth waterfowl camp weekend.
- Three acoustic recording devices (“frog loggers”) were deployed at Mandalay NWR (LA). Partners include U.S. Geological Survey and Barataria-Terrebonne National Estuary Program. Assistant Manager Brian Pember deployed a salinity logger in conjunction with apple snail research.
- Three FY18 captive-reared cranes arrived at Mississippi Sandhill Crane NWR (MS) this week from the Audubon Species Survival Center in New Orleans, Louisiana. This is the second crane release from the new pen this year.
- West Tennessee NWR Complex staff continue to work with Tennessee Wildlife Resource Agency concerning the operation and maintenance of the new Reelfoot Lake spillway.
- Public Affairs Specialist Mark Davis returned from nearly two weeks in the field helping biologists in the Southwest Region document the annual count of Mexican gray wolves. He visited National Forests in New Mexico and Arizona, photographing the endangered wolves, as well as biologists from the State of Arizona and the Service committed to conserving the species in the wild.
- Alabama ES recently completed a Species Status Assessment for the Red Hills Salamander to inform a revised recovery plan and an upcoming 5-year review. This species has made a remarkable recovery thanks to the diligent recovery efforts of our conservation partner. Large landowners such as Weyerhaeuser Company, Hancock, Resource Management Services, and the State of Alabama have all played a critical role in securing and protecting the salamander’s unique and sensitive habitat.
- Matt Dekar (RO ES) led a coordination meeting with Service staff in our Region to discuss the red-cockaded woodpecker Species Status Assessment and 5-year review. On February 15, we received concurrence from Regions 2 and 5, and our target to finalize the documents is the end of February. We are also exploring ways to obtain management commitments for the foreseeable future from all stakeholders that manage RCW populations to help inform the final listing determination.
- On February 6-8, David Dell, Rob Tawes, and Jerry Ziewitz (RO ES) travelled to the South Florida ES Field Office to work with field office staff and leadership on the final Environmental Impact Statement and biological opinion for the East Collier County, Florida, Multi-species Habitat Conservation Plan. The meeting was fruitful and resulted in a game plan and roles/responsibilities for folks assisting in completing the NEPA and consultation, and final determination in a timely manner. Weekly calls are occurring to track progress, identify issues/concerns and questions – and to coordinate these efforts with the applicant.

Habitat Management:

- Prescribed fires were conducted on eight NWRs in four states: Carolina Sandhills and ACE Basin NWRs (SC); Mississippi Sandhill Crane (MS); Okefenokee NWR (GA); and

St. Marks, Lower Suwannee, Merritt Island and Florida Panther NWRs (FL). Total acreage burned exceeded 8,000 acres, including 4,400 acres on Merritt Island NWR (FL).

- Hydrology restoration work continued at Pocosin Lakes NWR (NC). Two culverts were removed, riser structures will replace the culverts, and staff members are bolting the structures together in preparation for installation.
- Piedmont NWR (GA) planted 330 longleaf pine seedlings this week.
- Okefenokee NWR (GA/FL) completed longleaf pine restoration on 270 acres with the help of contractors planting 140,000 containerized, 6-inch longleaf seedlings.
- Staff at the Sam D. Hamilton Noxubee NWR (MS) continue to make progress in marking timber as part of ongoing forest management. Approximately 100 acres have been marked this winter.
- Refuge staff, resident volunteers, Gulf Corps, Limitless Vistas and interns of Big Branch Marsh NWR planted 5,300 trees.

Recreation/Outreach:

- The new bridge crossing Oregon Inlet in eastern North Carolina, connecting to Pea Island NWR (NC), was open to the public for walking, biking, etc. The grand opening event was attended by a couple thousand people.
- Central Arkansas NWR Complex assisted a film crew working on behalf of the Choctaw Nation developing exhibits for a new cultural/educational center in Oklahoma that will feature video stories describing the Native-American relocation during the “Trail of Tears.” The filmed swamp scenery in and around Cache River NWR typical of that encountered during the arduous treks through this area in the 1830s.
- The construction of the new Theodore Roosevelt Visitor Center continues: the construction of new turning lanes into the center have been completed; the exterior structure is mostly complete; and the interior is beginning to take shape; and work continues with Wilderness Graphics in creation of the displays with expected completion by June.

Permitting/Law Enforcement:

- A visitor fatality was reported at Wheeler NWR (AL); a bicyclist suffered from an apparent heart attack.
- Federal Wildlife Officers (FWOs) are almost 100% transitioned over from the Glock .40 caliber to the Glock 9mm pistols. Glock .40 caliber handguns will be transferred to the HQ Branch of Training at this year's Annual Inservice Training.
- Federal Wildlife Officers (FWOs) continue to support Operation Border Surge. This is a Presidential initiative to support border Refuges in Texas and Arizona. The Southeast Region details four FWOs each month with anticipation of the detail lasting until the end of the year.
- Southeast LA NWR Complex FWO Jared Vignes apprehended one subject for camping overnight in one of the refuge parking areas. The subject was issued a Violation Notice and numerous warnings for trespass, no proof of insurance, and no driver's license.
- Coast Guard, ICE, and other law enforcement officers chased a boat dropping off a shipment of drugs on Vieques. Because it looked like they were headed to the Vieques NWR, ICE contacted Federal Wildlife Officer Angel Toro. Although the perpetrators

escaped on the state reserve on foot, the vessel along with approximately 1,000 kilos of cocaine were seized in this quick response multi agency operation.

Monitoring/Science:

- Crystal River NWR Complex Wildlife Biologist Joyce Kleen flew part of the Statewide Synoptic Aerial Manatee Survey and counted 859 manatees from the Suwannee River to Weeki Wachee. The majority of the manatees, 840, were located in Citrus County where Crystal River and Chassahowitzka NWRs are located.
- In partnership with Arkansas TNC, the NWRS Inventory & Monitoring Branch deployed a long-term water quality meter at Logan Cave NWR (AR). Logan Cave supports the endangered Benton County cave crayfish and the threatened Ozark cavefish. The monitoring will assess seasonal influences within the recharge zone of the aquatic system and risks posed to these species.
- Fern Cave in Alabama is considered the number one gray bat hibernaculum in the world. The cave has five entrances, four of which are located on the 199-acre Fern Cave NWR, while the fifth entrance is located on adjacent land owned and managed by the Southeastern Cave Conservancy. The Fern Cave winter bat hibernaculum survey effort that took place on February 2 estimated 1.35 million gray bats utilizing the cave; the population appeared healthy and surveyors recorded no visual signs of white-nose syndrome.
- Alabama Department of Conservation and Natural Resources, World Wildlife Fund, and a volunteer counted wintering bats in Sauta Cave NWR (AL). Total numbers will be reported shortly but a northern long-eared bat was observed. This is believed to be the first member of this species noted wintering there during 3-4 decades of surveys by Refuge and World Wildlife Fund staff.

Hello Cathy,

This Friday I'm supposed to be a recommender for the yellow anise SSA (9 am to 1 pm Eastern). That conflicts with a doctors appointment and a call I need to do on East Collier HCP. Normally I'd ask Rafael to cover for me, but he'll be on leave (on his way to Poland). You are acting for this month, so I wanted to ask you. If it's a conflict for you maybe Michelle Eversen can cover it. Yellow anise is in Georgia too, so she's been invited also. Let me know.

Thanks!

Updated 6/6/2019

Federal Register is closed

- Sunterra Project Lake County FL (TE13200D) (DTS:FR00003624) (FO Erin G.)
 - Publish in the Federal Register closes 5/20/2019
 - Field office provided permit language 6/5/2019
 - RO has provided draft permit for FO review 6/5/2019

In the Federal Register

- Groveland Fire Station Amend. (TE 69161C-1) (DTS: FR00003626) (FO Erin G.)
 - Publish in the Federal Register closes 6/12/2019
- Orange County Utilities (TE 21560D) DCN# FR00003641 (FO Erin G.)
 - Publish in the Federal Register closes 6/12/2019
- Duke Energy Florida, LLC (TE 21556D) (DCN# FR00003639) (FO Erin G.)
 - Publish in the Federal Register closes 6/12/2019

Sent to the SOL for Surname

- Hwy 540 Land Investment (TE 24579D) (FO Lindsay Nester)
 - SOL tracking - FWS/R4/ES.SE.5027.VVM.
 - NOA surnamed by Leo
 - Memo sent to SOL for surname on 4/9/19 requested review by 5/13/2019
- CG Land Service LLC (Spruce road) (TE 28046D) (FO Heather Hitt)
 - Memo sent to SOL for surname 4/15/19 requested review by 5/13/19
- KBC Development (Shell road) (FO Erin G.)
 - SOL tracking # -FWS/R4/ES.SE.5036.VVM.
 - Species are - Scrub-Jay, Volusia County, Florida
- Westside M1-M2 HCP (TE 69953C-1): Permit Transfer and change (FO Al Begazo)
 - SOL tracking # - FWS/R4/ES.SE.5031.VVM.
 - Memo sent to SOL for surname 5/3/10 requested review by 5/24/19

Under RO review

- Amendment to Gulf Place East Parking Lot (TE 84363C-1)(FO Bill Lynn)
 - Applicant provided an outline of proposed project amendment based on new property and alignment
 - FO sent EA, Amended HCP and NOI to RO 5/7/2019
 - RO provided comments to the field office 5/13/2019
 - Recommend Cat-Ex since less impacts than original permit
 - Provided example Cat-Ex determination form
 - Provided draft rewrite of NOA
- Creek Holdings, LLC Low (TE 33502D)(FO Bill Lynn)
 - FO provided draft BO, NEPA low effects determination and HCP
 - FO provided NOA
 - RO working on SOL review memo.

Has not moved need information from FO for RO to move.

- Heron Cove (FO Elizabeth Landrum)
 - Conference call w/ RO on how to proceed 12/6 at 8:30. Recommended amend permit with co-applicants the current permit holder and the home owners association.

- FO working on documenting mitigation because this site has been sold to numerous land owners.
- FO will provide field certification of permit compliance, check etc.
- City of Perdido Key HCP FO ([FO Kristi Yanchis](#))
 - 5/3/2019 FO sent wrong 3-200 form and check for permit modification
 - 5/6/2019 C. Willis requested the following in order to process the modification.
 - Since it is a city agency, no check is necessary. Please let RO know if you want the check returned or destroyed in the RO.
 - They submitted the wrong form. RO sent the correct form for FO to request the applicant use the updated form.
 - RO will need the following: revised HCP and Field Office letter saying they have certified the amendment modification request and they have determine the NEPA analysis level low effect or EA, EIS.
 - RO received permit application on 5/31 but no other information. Waiting until FO certification has been provided to process.
- Boarders Property (TE16399D) ([FO Elizabeth Landrum](#))
 - RO created in SPITS 11/21
 - Waiting on FO to create NOA
- RMS RHS HCP Request ([FO Matt Matt Laschett](#))
 - RO received a copy of the letter requesting to amend lands covered in the RMS permit: TE17462A-0 and Conservation Forestry (Red Hill West) permit: TE66783A-0
 - 5/17/2019- RO Discussed with Field Office this can be a simple amendment because the original HCP allow for land acquisition/transfers.
 - FO & RO have drafted the memo for FO certification
 - FO has provided draft conditions for the permit based on the old permit.
 - Once RO receives the FO certification memo and permit application from FO, RO will enter into SPITS and provide draft permit for FO review/signature.

HAS NOT Moved to the RO

- Potlatch Deltic ([FO Rebecca Peak](#))
 - 5/13/2019 update - The original HCP "changed circumstances" or "adaptive management" section did not allow coverage of newly acquired lands.
 - 5/10/2019- FO contacted the POC at PotlatchDeltic (Kit Hart) that translocated is not a covered activity under the current ITP, and parishes in northern LA and the associated implementing documents will need to be amended (HCP, NEPA, and section 7 consultation).
 - Next step FO will work with the applicant to amend the HCP, NEPA and associated documents needed for an ITP.
- Charlotte County Board Amendment request (TE09117B) ([FO Elizabeth L](#))
 - Discussed with FO requested more information on assurance of mitigation success before moving forward. Determined it will need Federal Register Notice.
 - FO will work with applicant on HCP and NOA.
- Cold Creek Gopher Tortoise Conservation Plan (Alabama PowerCompany) ([Josh Rowell](#))
 - FO is working on HCP with applicant
 - RO provided review of the Draft HCP 8/3/2018.
 - Determined may not need a Federal Register notice/amendment
- Palmetto Capital Group, LLC. ([FO Elizabeth L](#))
 - Two checks were sent to the RO on 5/8

- ECo Consultants, Inc. is in the process of doing 2 HCPs for Palmetto Capital Group, LLC.
- The project names are Lake Groves & 621 & Washington.
- RO is still waiting for the contractor to contract RO with the directions for the checks.

COMPLETED PERMITS FY 2019

Subject: East Collier HCP: In-Service Update -- Tomorrow's Agenda
Date: Thursday, June 13, 2019 10:43:18 AM

Everyone: Please see the draft agenda at: https://drive.google.com/open?id=1mPuO2Na9Fq8oq1buVSQxuU7EsY-_2xXsR1_Th9Xd3f0

Suggestions and additions are welcome. Connie and Rox, the second item is an attempt to flesh out our timeline of deliverables. Jerry, is there anything to add for the non-panther part of the BO?

And, can I start trimming the invitation list for these meetings? It seems that I can now that the BO nears completion.
Talk to you tomorrow.

David Dell
US Fish and Wildlife Service
Southeast Region
HCP and Safe Harbors Coordinator
404/679-7313
david_dell@fws.gov

NOTE: All email correspondence and attachments received from or sent to me are subject to the Freedom of Information Act (FOIA) and may be disclosed to third parties.

June 14, 2019

East Collier HCP

In-Service Update

Present:

Topics --

- Use new telephone number next time
- Status of Tribal consultation
 - Seminoles
 - According to Kevin's meeting on June 5, we will receive more comprehensive comments than their May 30 e-mail.
 - Do we need to do anything else to answer their question about the Sierra Club letter?
 - Miccosukee
 - Response letter on surname, delivered to RD's office June 12.
- Panthers and Traffic: BO Resolution
 - Current pause ends July 5th. We should plan to wrap-up the BO as close to this date as possible.
 - **Milestone 1:** Identify best available inputs for PVA (traffic, roadway mortality, habitat patterns, crossing locations, etc).
 - **Milestone 2:** Set deadline to end collection of best available data and agree on inputs to the PVA.
 - **Milestone 3:** Set deadline for completion of PVAs;
 - **Milestone 4:** Assess how the decision might change across a range of
 - **Milestone 5:** Brief RO management
 - **Milestone 6:** Finish BO for SOL and ECPO review
 - Last week's ECPO meeting
 - Factors to consider in traffic analysis
 - Next steps once past BO resolution:
 - Status of BO
 - Are we at a point that we can share non-panther portions with ECPO?
 - Status?
 - Action area -- anything new, updates?
- Status of EIS and comment responses:
 - EIS and Appendices cleaned up, needs input, about 3 pages over

- Need to estimate Service and Applicant costs to prepare final EIS
- SO 3355 Schedule
 - Information Memorandum pertaining to SO 3355 pause status transmitted to Director's Office 6/5/19. Pause implemented in Department database 6/6/19.
- FOIA
 - Unmet expectation from May 31: Given that we in the RO are also confused on the status of responses by Dell and Tawes, Rob suggests a meeting among FO, RO, and FOIA staff to clarify. Rob will schedule.
- Section 7/404 MOU
 - Vicki Mott transmitted draft to the Corps on June 5
- Comment responses
 - Specific requests for inputs by those not tied up with traffic analyses

Subject: Action: scheduling Florida Panther RTM
Date: Friday, June 14, 2019 12:10:52 PM

Hi all,

I am proposing that we set a date for the Florida Panther RTM in September (see action/dates below). Given the complexity of the recommendation, I suggest we hold 1.5 days for the meeting. The afternoon of day 1 would be the SSA presentation, and we would have a full day on day 2 (if needed) for the elicitation portion and discussion of next steps. This is just a general concept and open for debate/refinement.

However, I am also hoping that we can discuss the scope of the RTM, next steps, and roles and responsibilities before the RTM. I suggest we have a pre-meeting (call) by the end of July to address some of these questions. A smaller group (Rox, David, Erin, myself?) can put materials together to help facilitate this pre-meeting so we can make decisions (to the extent possible) and set clear expectations for the RTM.

Action (by COB Monday): From the RTM dates below, please reply to me with any blackout dates that would be impossible to accommodate with your schedule. Note: these dates were selected to allow time to incorporate peer-review comments and to allow time for the pre-meeting discussion and follow up. Also, please let me know if I need to include additional people and programs on this email chain for planning purposes (or invited to the RTM).

September 12-13,16-20, 23-27

Thanks and please let me know if you have any questions, concerns, or suggestions about the proposed plan. I will follow up with a calendar invitation for the RTM and pre-meeting.

Have a good weekend.

Matt

Date: Friday, June 14, 2019 2:03:49 PM

Hi Matt,

As of today, Larry can be available any of these dates you have suggested.

Thank you,

LeeAnn

Hi all,

I am proposing that we set a date for the Florida Panther RTM in September (see action/dates below). Given the complexity of the recommendation, I suggest we hold 1.5 days for the meeting. The afternoon of day 1 would be the SSA presentation, and we would have a full day on day 2 (if needed) for the elicitation portion and discussion of next steps. This is just a general concept and open for debate/refinement.

However, I am also hoping that we can discuss the scope of the RTM, next steps, and roles and responsibilities before the RTM. I suggest we have a pre-meeting (call) by the end of July to address some of these questions. A smaller group (Rox, David, Erin, myself?) can put materials together to help facilitate this pre-meeting so we can make decisions (to the extent possible) and set clear expectations for the RTM.

Action (by COB Monday): From the RTM dates below, please reply to me with any blackout dates that would be impossible to accommodate with your schedule. Note: these dates were selected to allow time to incorporate peer-review comments and to allow time for the pre-meeting discussion and follow up. Also, please let me know if I need to include additional people and programs on this email chain for planning purposes (or invited to the RTM).

September 12-13,16-20, 23-27

Thanks and please let me know if you have any questions, concerns, or suggestions about the proposed plan. I will follow up with a calendar invitation for the RTM and pre-meeting.

Have a good weekend.

Matt

Larry,
Here's the one pager from FWC about the panther disorder. FYI - I reached out to one of our contaminants biologists in R4 to see if he could come do a level 1 survey at Corkscrew. I should know if he can by the end of the week.
Let me know if you have questions.

To: Roxanna Hinzman <Roxanna_Hinzman@fws.gov>

Hi Rox-

Please see the attached as a replacement for the version I sent you on Friday. We can use this to draft the "emerging issue" paragraph. I can start on that after Noon today. I have another fire I need to suppress in the meantime. Obviously it wouldn't hurt for Larry and other leadership to have a copy of the attached in their back pocket sooner rather than later.

Briefing on Emerging Neurologic Disorder in Florida Panthers

July 2019

- A neuromuscular disorder of unknown causes has been detected in Florida panthers.
- All affected animals have exhibited some degree of hind end incoordination or gait abnormality ranging from mild to severe. Most likely causes fall within these three categories:
 - Infectious (viral or bacterial)
 - Nutritional
 - Toxin (anthropogenic or environmental)
- Although the condition was first recognized in a family group in April 2018, subsequent data mining revealed that this condition may have been present in 2017.
- As of July 2019, there have been fewer than 10 panthers (mostly kittens) and 1 adult bobcat that exhibited varying degrees of this condition based on video evidence.
- These animals are from Charlotte, Collier and Lee counties on Babcock Ranch Preserve, CREW, Corkscrew Swamp Sanctuary, Pepper Ranch Preserve and Golden Gate Estates.
- Numerous infectious diseases and possible causes have been ruled out, but a definite cause has not been determined.
- Consultation with experts in the field of veterinary and wildlife medicine, as well as adjunct specialties including environmental toxicology, have been ongoing and will continue in the investigation of the underlying cause of this disorder.
- Private citizens have collected some of these panther videos therefore this issue could emerge publicly at some point. Staff are drafting talking points.
- Staff are developing an action plan and a more detailed summary document.
- Remote cameras will be used to monitor panthers currently exhibiting this condition and as a surveillance tool to detect additional individuals with this disorder.

Subject: Re: East Collier HCP: In-Service Update Tomorrow
Date: Thursday, September 5, 2019 7:51:31 AM

Good Morning David,

Due to a scheduling conflict, I will not be able to join tomorrow morning's call. However, I have looked at the agenda and I have a few comments:

I still have not heard anything back from the Miccosukee, indicating that they wish for any further FWS follow-up. So, I agree that the consultation with them is "substantially complete," but we will not formally close it at this time. (I consider it advisable for a Tribal consultation to be officially closed at some point – with mutual acknowledgment between FWS and the Tribe.)

Regarding the Seminole consultation – that is good that the issue and response table is started. Thank you. To the extent feasible, we should have the FWS response be parallel or equivalent to the way we responded to the Miccosukee. In the agenda for tomorrow's call, it says the Seminole Tribe "did not mention cultural resource sites," which is accurate regarding their August 12, 2019 comments, but please refer to a May 30, 2019 email from Victoria Menchaca (Tribe) to Kevin and Connie with two "cultural resource-related" comments (shown below). I suggest that these comments be incorporated into the issue and response table, as appropriate. I think they are seeking reassurance that any Covered Activities with potential for effect on historic properties will be subject to SHPO review, and that the Tribe will be invited to consult (per Sec. 106) if their interests may be affected.

I will be available after 10:00 AM tomorrow if there are any questions for me following the call. Please keep me updated.

Thanks,

--Tim

Subject: FWS Eastern Collier County Multiple Species Habitat Conservation Plan Environmental Impact Statement (EIS), Collier County FL
THPO #: 0031420

Dear Ms. Cassler and Mr. Palmer,

Thank you for contacting the Seminole Tribe of Florida – Tribal Historic Preservation Office (STOF-THPO) regarding the FWS Eastern Collier County Multiple Species Habitat Conservation Plan Environmental Impact Statement (EIS), Collier County FL. The proposed undertaking does fall within the STOF Area of Interest. We have reviewed the documents provided and completed our assessment pursuant to Section 106 of the National Historic Preservation Act and its implementing authority, 36 CFR 800. We would respectfully like to submit the following comments regarding the EIS.

1. As we read the EIS we noticed a lack of specific language about the requirement for Tribal consultation on all proposed projects with the potential to effect historic resources. Therefore, we would respectfully like to ask that the EIS specifically state there is a requirement for Tribal consultation on the proposed projects under this plan since it is a federal plan.

2. We also noted that the phrase “covered activities” is repeatedly used throughout the EIS, yet what those specific “covered activities” are is not listed (or at least we could not find that list in the document). As such, we would respectfully like to ask that the “covered activities” mentioned in the EIS be more clearly defined and that a list of those activities be included with the EIS.

Thank you very much for your time and please feel free to contact us with any questions.
Respectfully,

Victoria L. Menchaca, MA, Compliance Review Specialist

Subject: Action: rescheduling Florida Panther RTM
Date: Tuesday, September 17, 2019 5:31:22 AM

Hi all,

Please complete the following google sheet (poll) to provide your availability for the Florida Panther recommendation meeting (RTM) by COB Wednesday:

<https://docs.google.com/spreadsheets/d/1njgqsLhjwFgPOYg90MxkAbV3rO1-QKBH2-vNIBF871o/edit?usp=sharing>

Given the complexity of the RTM, I suggest we hold two full days for the meeting. We will tentatively start the SSA presentation on Day 1 at 10AM and we hope to start the elicitation that afternoon. We expect to complete the elicitation by 4PM on Day 2.

Thanks and please let me know if you have any questions or concerns. I will follow up with a calendar invitation and agenda for the RTM.

Matt

U.S. Fish and Wildlife Service Weekly -10/17/19

South Atlantic-Gulf-Mississippi Basin Unified Regions

One Lake Project on Pearl River Basin

The Service continues to work with the Rankin-Hinds Pearl River Flood and Drainage Control District and its consultants on planning efforts for the Pearl River Basin Flood Control Project or One Lake Project. FWS has completed its draft biological opinion and it is being reviewed internally. FWS is also working to complete formal consultation under the Endangered Species Act by/or before October 25, 2019, for impacts to two threatened species; the ringed sawback (AKA ringed map) turtle and the Gulf sturgeon. (10/15/2019)

East Collier County, Florida, Multi-species Habitat Conservation Plan (EIS)(S.O. 3355)

FWS is currently on "pause" as we process a twelfth landowner application (Gargiulo, Inc.) received in September, and work with the applicants to analyze the results of traffic modeling and expected consequences of increased traffic on the Florida panther. The draft Notice of Availability announcing the twelfth applicant has been surnamed by the Regional Director, and sent to the Office of the Solicitor for review. Once we receive Solicitor surname, it will then be entered into DTS for HQ and ExecSec clearance and publication in the *Federal Register*. Major progress has been made with the biological opinion, EIS, response to comments, and a memorandum of understanding with the Corps of Engineers. We have been in formal tribal consultation with the Seminole Tribe and the Miccosukee Indians, with the latter formally objecting to the project. A more detailed Information Memorandum for the Director is forthcoming.(10/10/2019)

Asian Carp Ceremony at Barkley Lock and Dam

FWS, U.S. Army Corps of Engineers, Kentucky Department of Fish and Wildlife Resources, and Tennessee Wildlife Resources Agency will host a ceremony at Barkley Lock and Dam in Grand Rivers, Kentucky, on November 8, 2019, to announce the deployment of a bio-acoustic fish fence. This innovative technology will be tested at Barkley Lock over the next three years. The goal of the bio-acoustic fish fence is to reduce the use of the lock by Asian carp, thus helping to protect hundreds of river miles that remain relatively untouched by carp in the Tennessee and Cumberland rivers. Senator Mitch McConnell (R-KY) and Representative James Comer (R-KY-1) are confirmed to attend the event and are expected to announce efforts to secure additional federal funding (\$25 million in total) for Asian carp control. (10/09/2019)

Endangered Species Act actions, 30 days out

Species	Action	Current Status	Target Date FR (dates in bold are litigation deadlines)	Outreach Status

On Tue, Nov 12, 2019 at 7:09 AM Arnold, Jack <jack_arnold@fws.gov> wrote:

Happy to - David Dell, our Regional HCP Coordinator, and Collier County HCP guru, will be leaving for NCTC about 10am this morning for the coalition meeting. He'll be attending, as will the applicants' consultant.

If you have a few minutes before that, we could give you a call.

Jack -- I read the briefing paper you sent in to Margaret on this HCP and remember the conversation we had at the ARD meeting. The National HCP Coalition is meeting at NCTC this week and this project might come up.

Could you or one of your folks give me a call to fill me in on the details of how you're handling vehicular strikes and the MOU with the Corps re. consultation on subsequent 404 permits? Thanks. -- GDF

Gary – Here's the white paper we sent to the Service in February. As discussed, we had very productive meetings in Collier County yesterday and Tuesday with Rob Tawes and David Dell (from the regional office) and Ken MacDonald and Connie Casseler (sp?) (from Vero Beach) and have made good progress on completing the HCP and the draft EIS (and related environmental reviews). All agree that in order to move forward we need the Solicitor's office to engage on the issue of how to address vehicle strikes of panthers, and we appreciate your help in securing that important involvement. I think there was general sentiment that the decision how to address vehicle strikes could have national implications, so coordination with headquarters would likely be useful at some point.

Let me know if you need anything further. I will be out of the office today and tomorrow so best way to call me is via cell phone – 240-498-6409.

Thanks, Virginia

Matt,

I have a number of complex documents I need to read through for the upcoming section 404 assumption call with HQ and the East Collier HCP biological opinion. I would like to request telework on Wednesday to have less distractions while focusing on them. I presently do not have any in-office meetings scheduled for Wednesday.

Thanks for your consideration. Rob

Subject: FYI: Tribal Updates - April 2020
Date: Monday, April 27, 2020 1:26:12 PM
Attachments: [South Atlantic-Gulf & Mississippi Basin-Tribal Updates April 2020.docx](#)

Good Afternoon Everyone!

I am happy to share with you the first monthly digest of Tribal happenings for the region. We hope to share this digest at the end of each month. The included information is basic happenings organized in the form of bullet points and summarizes the current status of Tribal interactions. Tim Binzen, Native American Liaison (shared LR4/LR5), is happy to address any questions you may have. Please reach out to him!

Daffny Pitchford
Acting ARD - External Affairs
South Atlantic-Gulf and Mississippi Basin Interior Regions, NWRS
1875 Century Blvd.

Tribal Updates: South Atlantic-Gulf and Mississippi Basin Regions

Current Topics in Tribal Relations (April 2020)

Tim Binzen, Regional Tribal Liaison ([Timothy Binzen@fws.gov](mailto:Timothy_Binzen@fws.gov)) (413) 800-2071

- COVID-19 and Tribes in the Region. Tribes have closed their governmental offices, and people are teleworking. Adjustments are being made, and the work continues. Tribes in the Southeast have a relatively high ability to maintain connectivity and Internet access. Email is the preferred mode of communication. We are giving Tribes extra response time for review and comment.
- Tribal Wildlife Grants Program in the Region. TWG has been fully funded for FY2020. Due to COVID-19, the deadline for Tribes to submit their FY 2020 TWG applications has been pushed back by two months, to July 6. We are developing guidelines for FWS staff who are asked by Tribes to provide technical assistance on preparation of applications.
- Tribal Trust Training. We are developing FY 2020 distance learning opportunities for Regional FWS staff on Tribal history, cultural awareness, the Service's trust responsibilities, and best practices for consultation.
- Tensas River NWR – ARPA violation, NAGPRA process, and consultation with affected Tribes. We continue to work with the Tribes to achieve reconciliation and resolution on this matter. Per Tribal request, a case study report is planned (with Tribal involvement), and we are developing on-line Tribal Awareness training for Refuge Managers. The process of repatriation under NAGPRA is ongoing. We are facilitating site monitoring for the Tribes.
- Eastern Collier County Multi-Species HCP (Florida). We are engaged in formal consultations with the Miccosukee Tribe and the Seminole Tribe of Florida on this HCP.
- Manatee SSA. We are developing Tribal outreach for the manatee SSA.
- Cape Sable Seaside Sparrow (CSSS) and the Miccosukee Tribe. We are continuing to consult with the Tribe on single-species management for CSSS.
- M-Opinion and Tribes. We invited the Region's Tribes to consult, but no Tribes have responded.
- Genetically Engineered Crops (GECs) on Refuges. We notified the Tribes in the Region about this proposal, but no Tribes have expressed concerns.
- Catawba Indian Nation and MOU for introduction of Schweinitz's sunflower. The South Carolina ES Field Office is working with the Tribe to restore this endangered plant to Tribal trust lands.
- Mississippi Band of Choctaw and FWS Private Lands Coordinator. We are coordinating with the Tribe to provide funding for their planned Wetlands Education Area. The funds will be used for control of invasive plants, native plant restoration, and interpretive signage.

On Thu, Jun 13, 2019 at 12:42 PM Dell, David <david_dell@fws.gov> wrote:

Everyone: Please see the draft agenda at: https://drive.google.com/open?id=1mPuO2Na9Fq8oq1buVSQxuU7EsY-_2xXsR1_Th9Xd3f0

Suggestions and additions are welcome. Connie and Rox, the second item is an attempt to flesh out our timeline of deliverables. Jerry, is there anything to add for the non-panther part of the BO?

And, can I start trimming the invitation list for these meetings? It seems that I can now that the BO nears completion.
Talk to you tomorrow.

David Dell

Acquanetta has asked if we have flexibility to move our briefing with Leo to the 9:30 to 10:30 time slot rather than the 10:00 to 11:00 time slot. This should work for the RO- ES staff as we will be able to wrap up our staff meeting (which starts at 8:30). Wanted to check with the Florida folks. Please let me know as soon as you can. Thanks!

East Collier County MSHCP Update Call

Present: FWS:

ECPO:

ECPO Consultants and Counsel:

Corps of Engineers:

DOI SOL:

Topics:

- Section 7/404 MOU
 - Service received Corps edits August 2
 - Jerry and David have provided Solicitor suggested edits in response
- Tribal consultations
 - Comments received from Seminoles August 12, still have these under review
 - We will develop a formal reply
 - Formal reply to Miccosukee mailed June 25 -- follow-up e-mail copy to staff a week later.
 - Regional Tribal Liaison, Tim Binzen, followed up again informally to Tribe staff, this past week.
 - We may be at the point of simply documenting our consultation efforts in order demonstrate we made a reasonable effort.
- EIS
 - Public comments (mostly on the HCP) grouped by topic, we have begun responses.
 - Connie provided her draft comment responses to Field and Regional Office for input early this week.
- Status of BO
 - We have complete drafts for all chapters except for the panther.
 - Jerry continues a chapter by chapter review for consistency of analyses.
- FOIA

Subject: Re: East Collier HCP: In-Service Update Tomorrow
Date: Thursday, October 17, 2019 1:20:51 PM

Hi David,

I will not be able to join tomorrow's call. However, at this time I do not have any Tribal updates to add to what is shown on the agenda. If anyone does have any Tribal questions for tomorrow, please let me know.

Thanks,
--Tim

Attachments: [20191206 Service Update.docx](#)

Here's today's Call-In information.

This is a different number from the usual.

(b)(5)CIP Code: **(b)(5)CIP**

David Dell
US Fish and Wildlife Service
South Atlantic - Gulf and Mississippi Basin
Unified Regions
HCP and Safe Harbors Coordinator
404/679-7313
david_dell@fws.gov

NOTE: All email correspondence and attachments received from or sent to me are subject to the Freedom of Information Act (FOIA) and may be disclosed to third parties.

December 6, 2019

East Collier HCP

In-Service Update

(b)(5)CIP Code: **(b)(5)CIP**

Present:

Preliminary Status Check ahead of December 18 RD Brief

- Preparing for RD briefing, December 18
 - Main topic will be the status of our PVA modeling and BO analyses
 - Need to identify outstanding issues
- Update of latest modeling
 - Results of PVA alternative runs?
 - Latest work?
- Gut check
 - Issuance criteria
 - The taking will be incidental
 - Incidental to an otherwise lawful activity
 - Applicant will, to the maximum extent practicable, minimize and mitigate the impacts of the taking
 - Fully offset?
 - If not fully offset, why is this the maximum extent practicable?
 - Applicant will ensure that adequate funding for the plan will be provided
 - Cost of developing project proposals
 - Cost of project construction
 - Cost of implementing project BMPs
 - Construction
 - Occupation and maintenance
 - Cost of range-wide activities (Marinelli Fund)
 - The taking will not appreciably reduce the likelihood of the survival and recovery of the species in the wild
 - Depends on the BO's conclusion

- Other measures that the Secretary may require as being necessary or appropriate for purposes of the plan will be met;
- and the Secretary has received assurances as he may require that the plan will be implemented.
 - Consistency checks
 - Define BMP objectives (section 4 of Addendum)
 - Any ITP conditions
 - Partial ITP transfers to HOAs
 - Commitments in Addendum
- Reporting requirements

- Items to present at RD brief
- Plan on prepping the briefing
- Tasks for next week
 - Who leads
 - Slide show: [20191218 RD Brief](#)
 - Other materials
