public agency (block B. on page 1), the person to whom the permit will be issued (e.g., the landowner, president, director, executive director, or executive officer) is legally responsible for implementing the permit. Although other people under the direct control of the permittee (e.g., employees, contractors, consultants) receive third party take authorization in their capacity as designees of the permittee, the individual named as the permittee ultimately is legally responsible for the permit and any activities carried out under the permit except as otherwise limited in the case of permits issued to State or local government entities under 50 CFR 13.25(d).

Up-to-date annual reports and any other required reports under your existing permit(s) must be on file before a permit will be considered for renewal or amendment.

If your activities may affect species under the authority of the National Marine Fisheries Service (NMFS), then you may need to obtain a separate permit from NMFS. NMFS and the Fish and Wildlife Service (Service) share jurisdiction for sea turtles. The Service issues permits to conduct activities impacting sea turtles on land, and the NMFS issues permits to conduct activities impacting sea turtle in the marine environment. To apply for a permit to conduct activities with sea turtles in the marine environment, please contact the NMFS via the Internet at http://www.nmfs.noaa.gov/prot_res/PR3/Permits/ESAPermit.html
