

**“IF YOU BUILD IT  
WILL THEY COME?”**

Big Muddy Sessions:

# Life in a Missouri River Chute

As part of the Missouri River Recovery Project, the US Army Corps of Engineers is building new islands, chutes and shallow water habitat along the Missouri River.

US Fish and Wildlife Biologist Andy Starostka will be reporting on what science tells us is working and what lessons are being learned.

Taste Les Bourgeois local wine at the cash bar. Come early to order dinner upstairs.
