

Federally Endangered, Threatened, Proposed, and Candidate Species in Indiana

In 1973 Congress passed a law called the *Endangered Species Act*. The purpose of this law is:

- to identify animals and plants that are in trouble; and
- to protect these animals and plants and their habitats.

The U.S. Fish and Wildlife Service keeps a list of animals and plants that are protected by the Endangered Species Act.

There are over 950 animals and plants from the United States on the list of endangered and threatened species:

- An *endangered species* is in danger of extinction throughout the area in which they are usually found.
- A *threatened species* is one that could become endangered in the near future.
- A *candidate species* has been sufficiently studied and the U.S. Fish and Wildlife Service has decided that it should be proposed for threatened or endangered status. Candidate species are not protected under the Endangered Species Act.

MAMMALS

Gray bat (E)
Indiana bat (E and CH)
Northern long-eared bat (T)

BIRDS

Least tern (Interior population) (E)
Piping plover (E and CH)
Rufa red knot (T)
Whooping crane (Nonessential Experimental Population)

REPTILES

Copperbelly water snake (T)
Eastern Massasauga (T)

CLAMS (Freshwater Mussels, Unionids)

Clubshell (E)
Fanshell (E)
Fat pocketbook (E)
Northern riffleshell (E)
Rabbitsfoot (T and CH)
Rayed bean (E)
Rough pigtoe (E)
Sheepnose (E)
Snuffbox (E)
White cat's paw pearlymussel (E)

INSECTS

Karner blue butterfly (E)
Mitchell's satyr (E)
Rusty patched bumble bee (E)

PLANTS

Eastern prairie fringed orchid (T)
Mead's milkweed (T)
Pitcher's thistle (T)
Running buffalo clover (E)
Short's bladderpod (E and CH)
Short's goldenrod (E)

E - Endangered
T - Threatened
CH - Critical Habitat

The U.S. Fish and Wildlife Service

The mission of the *U.S. Fish and Wildlife Service* is to preserve, protect, and enhance fish and wildlife and their habitats for the continuing benefit of the people.

Region 3 of the U.S. Fish and Wildlife Service covers an eight-state area: Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Ohio, and Wisconsin.

Region 3's *Ecological Services* Program works to protect and enhance wetland and upland habitats, study the effects of contaminants on fish and wildlife, inventory and map wetlands, and protect and restore endangered species.

The *Division of Endangered Species* in Region 3 works with other Federal agencies, state agencies, and private groups and landowners to:

- help prevent animals and plants within the eight states of Region 3 from becoming extinct;
- help protect habitats important to these species; and
- help bring populations of animals and plants to the point where they are no longer threatened or endangered.

For more information about animals and plants protected by Federal law, call or write to:

Division of Endangered Species
U.S. Fish and Wildlife Service
5600 American Blvd. West, Suite 990
Bloomington, Minnesota 55437-1458
612/713-5350

In Indiana:

U.S. Fish and Wildlife Service
620 South Walker Street
Bloomington, Indiana 47403-2121
812/334-4261

Most states, including Indiana, have their own programs to protect locally endangered animals and plants.

For information about animals and plants protected by Indiana law, write to:
