Dear Jeanne Holler, Dear U.S. Fish and Wildlife Service, Thank you for the opportunity to comment on the Conservation Opportunities Map for the Kankakee National Wildlife Refuge and Conservation Area. I support the establishment and expansion of the Kankakee National Wildlife Refuge and Conservation Area through the purchase of land from willing sellers because publicly-owned natural areas allow all people to enjoy nature and engage in outdoor recreation. I agree with the Conservation Map's emphasis on conserving wetlands and forested bottomlands. Wetlands provide vital services to our planet by filtering water and reducing flooding. If the Service can convert marginal farmland into a rich wetland through buying land from willing sellers, I believe that is a good use of tax dollars. The map's emphasis on connecting existing conservation lands with the Refuge is logical. Connecting these conservation areas will provide more habitat for migratory birds and other animals. I support conserving rare black oak savannas and other habitats on the map that support threatened and endangered species. We must preserve these habitats and species for future generations. While private owners can certainly preserve habitat and steward land, I value publicly-owned land that is accessible to all. I encourage the Service to highlight on the map that land will only be bought from willing sellers, and that the public will have access to Refuge land. Also, as funds allow, I feel the Service should build and staff a Kankakee National Wildlife Refuge and Conservation Area Welcome Center so visitors can access restrooms and water. I encourage the Service to continue meeting with the local community that will be impacted by the Refuge. I believe that the Service and local communities can work together towards the goal of protecting both the environment and the community's interests. I encourage the Service to work with the community so that any eco-tourists are aware of locally-owned businesses that would welcome more customers. Thank you for this opportunity to provide input as the USFWS develops its Land Protection Plan for the Kankakee Refuge. Sincerely, Nancy Bennett 700 W Irving Park Rd Apt A2 Chicago, IL 60613 nnjbennett@gmail.com 7732484196

Dear Jeanne Holler, Dear U.S. Fish and Wildlife Service, Thank you for the opportunity to comment on the Conservation Opportunities Map for the Kankakee National Wildlife Refuge and Conservation Area. I support the establishment and expansion of the Kankakee National Wildlife Refuge and Conservation Area through the purchase of land from willing sellers because publicly-owned natural areas allow all people to enjoy nature and engage in outdoor recreation. I agree with the Conservation Map's emphasis on conserving wetlands and forested bottomlands. Wetlands provide vital services to our planet by filtering water and reducing flooding. If the Service can convert marginal farmland into a rich wetland through buying land from willing sellers, I believe that is a good use of tax dollars. The map's emphasis on connecting existing conservation lands with the Refuge is logical. Connecting these conservation areas will provide more habitat for migratory birds and other animals. I support conserving rare black oak savannas and other habitats on the map that support threatened and endangered species. We must preserve these habitats and species for future generations. While private owners can certainly preserve habitat and steward land, I value publicly-owned land that is accessible to all. I encourage the Service to highlight on the map that land will only be bought from willing sellers, and that the public will have access to Refuge land. Also, as funds allow, I feel the Service should build and staff a Kankakee National Wildlife Refuge and Conservation Area Welcome Center so visitors can access restrooms and water. I encourage the Service to continue meeting with the local community that will be impacted by the Refuge. I believe that the Service and local communities can work together towards the goal of protecting both the environment and the community's interests. I encourage the Service to work with the community so that any eco-tourists are aware of locally-owned businesses that would welcome more customers. Thank you for this opportunity to provide input as the USFWS develops its Land Protection Plan for the Kankakee Refuge. Sincerely, Robert Guardi 5915 Sherman Ave Downers Grove, IL 60516 bguardi@gmail.com 6306610772

While private owners can certainly preserve habitat and steward land, I value publicly-owned land that is accessible to all. I encourage the Service to highlight on the map that land will only be bought from willing sellers, and that the public will have access to Refuge land. Also, as funds allow, I feel the Service should build and staff a Kankakee National Wildlife Refuge and Conservation Area Welcome Center so visitors can access restrooms and water. I encourage the Service to continue meeting with the local community that will be impacted by the Refuge. I believe that the Service and local communities can work together towards the goal of protecting both the environment and the community's interests. I encourage the Service to work with the community so that any eco-tourists are aware of locally-owned businesses that would welcome more customers. Thank you for this opportunity to provide input as the USFWS develops its Land Protection Plan for the Kankakee Refuge. Sincerely, Helen Bartlett 8322 North Ozanam Avenue Niles, IL 60714 hbartlet@gmail.com 7654129629

**From:** Eileen Crooks <becrooks@mchsi.com>  
**Sent:** Fri Jan 27 2017 11:33:02 GMT-0700 (MST)  
**To:** "U.S. FWS Jeanne Holler" <r3planning@fws.gov>  
**Subject:** Kankakee Wildlife Refuge

Dear U.S. FWS Holler, This proposed Wildlife Refuge is not wanted or needed. The state already maintains a refuge in this area, and this is nothing more than federal overreach. Momence is a small community, and the loss of property tax revenue would be devastating to the City and its school district and fire protection district. Those that live in the affected area are already better stewards of the land and the river than the federal government could ever be. Leave us alone and just GO AWAY! Sincerely, Eileen Crooks

## Oppose U.S. FWS Kankakee Nat'l Wildlife Refuge

**"Mr. & Mrs. Jeffrey Savoie" <user@votervoice.net>**

---

**From:** "Mr. & Mrs. Jeffrey Savoie" <user@votervoice.net>  
**Sent:** Fri Jan 27 2017 11:01:02 GMT-0700 (MST)  
**To:** "U.S. FWS Jeanne Holler" <r3planning@fws.gov>  
**Subject:** Oppose U.S. FWS Kankakee Nat'l Wildlife Refuge

Dear U.S. FWS Holler, The U.S. Fish & Wildlife Service - a federal agency funded by your tax dollars - plans to create a Kankakee National Wildlife Refuge & Conservation Area in your community which will have an impact on your farm, home, property, and community. The plan would include 21,500 acres primarily in eastern Kankakee County and northeastern Iroquois County. U.S. Fish & Wildlife Service is seeking public input on this idea and it is important to submit your thoughts on how this refuge could impact you. Your comments should be submitted by December 31, 2016. Please take the time to submit your comments by clicking below. Impacts to our local community could be extensive: Loss of farm land - the refuge could remove enough farm land from production in Kankakee County to remove \$43.6 million of agricultural economic output annually. Loss of property tax revenue - land acquired by US Fish & Wildlife does not pay property taxes. The loss of property tax revenue to our local schools and municipalities could make our communities unsustainable. Impacts to established drainage - The Kankakee River watershed is very large and disrupting drainage to the river could cause flooding and water management issues for the farm land and residential areas for miles outside of the proposed focus areas. No Land Protection Plan - This Land Protection Plan (LPP) is to give detail on how the lands in the focus area are to be managed. US Fish & Wildlife Service has not released an LPP and without it, we have no idea what areas of the refuge would be publicly accessible and what areas would be off limits. No updated Environmental Assessment - The Environmental Assessment (EA) study for this refuge is over 17 years old and there have been many changes over that period of time which warrant a new EA. For these above concerns and many more, the Farm Bureau opposes the refuge plan. Please take time to voice your concerns as well! Sincerely, Jeffrey Savoie 1592 E 2800 North Rd Clifton, IL 60927 jrsavoie@yahoo.com

Dear Jeanne Holler, Dear U.S. Fish and Wildlife Service, Thank you for the opportunity to comment on the Conservation Opportunities Map for the Kankakee National Wildlife Refuge and Conservation Area. I support the establishment and expansion of the Kankakee National Wildlife Refuge and Conservation Area through the purchase of land from willing sellers because publicly-owned natural areas allow all people to enjoy nature and engage in outdoor recreation. I agree with the Conservation Map's emphasis on conserving wetlands and forested bottomlands. Wetlands provide vital services to our planet by filtering water and reducing flooding. If the Service can convert marginal farmland into a rich wetland through buying land from willing sellers, I believe that is a good use of tax dollars. The map's emphasis on connecting existing conservation lands with the Refuge is logical. Connecting these conservation areas will provide more habitat for migratory birds and other animals. I support conserving rare black oak savannas and other habitats on the map that support threatened and endangered species. We must preserve these habitats and species for future generations. While private owners can certainly preserve habitat and steward land, I value publicly-owned land that is accessible to all. I encourage the Service to highlight on the map that land will only be bought from willing sellers, and that the public will have access to Refuge land. Also, as funds allow, I feel the Service should build and staff a Kankakee National Wildlife Refuge and Conservation Area Welcome Center so visitors can access restrooms and water. I encourage the Service to continue meeting with the local community that will be impacted by the Refuge. I believe that the Service and local communities can work together towards the goal of protecting both the environment and the community's interests. I encourage the Service to work with the community so that any eco-tourists are aware of locally-owned businesses that would welcome more customers. Thank you for this opportunity to provide input as the USFWS develops its Land Protection Plan for the Kankakee Refuge. Dear Jeanne Holler, Dear U.S. Fish and Wildlife Service, Thank you for the opportunity to comment on the Conservation Opportunities Map for the Kankakee National Wildlife Refuge and Conservation Area. I support the establishment and expansion of the Kankakee National Wildlife Refuge and Conservation Area through the purchase of land from willing sellers because publicly-owned natural areas allow all people to enjoy nature and engage in outdoor recreation. I agree with the Conservation Map's emphasis on conserving wetlands and forested bottomlands. Wetlands provide vital services to our

planet by filtering water and reducing flooding. If the Service can convert marginal farmland into a rich wetland through buying land from willing sellers, I believe that is a good use of tax dollars. The map's emphasis on connecting existing conservation lands with the Refuge is logical. Connecting these conservation areas will provide more habitat for migratory birds and other animals. I support conserving rare black oak savannas and other habitats on the map that support threatened and endangered species. We must preserve these habitats and species for future generations. While private owners can certainly preserve habitat and steward land, I value publicly-owned land that is accessible to all. I encourage the Service to highlight on the map that land will only be bought from willing sellers, and that the public will have access to Refuge land. Also, as funds allow, I feel the Service should build and staff a Kankakee National Wildlife Refuge and Conservation Area Welcome Center so visitors can access restrooms and water. I encourage the Service to continue meeting with the local community that will be impacted by the Refuge. I believe that the Service and local communities can work together towards the goal of protecting both the environment and the community's interests. I encourage the Service to work with the community so that any eco-tourists are aware of locally-owned businesses that would welcome more customers. Thank you for this opportunity to provide input as the USFWS develops its Land Protection Plan for the Kankakee Refuge. Sincerely, Macaire Grambauer 1635 N Whipple St # 2 Chicago, IL 60647 moviemadmac@gmail.com 7733083160

Dear U.S. FWS Holler, I am strongly opposed to this refuge going through. It is going to devastate surrounding farmland and values in the area. Sincerely, Matt Perreault 4555 W 5000S RD KANKAKEE, IL 60901 ampatfarms@gmail.com
