Dear Jeanne Holler, Dear U.S. Fish and Wildlife Service, Thank you for the opportunity to comment on the Conservation Opportunities Map for the Kankakee National Wildlife Refuge and Conservation Area. I support the establishment and expansion of the Kankakee National Wildlife Refuge and Conservation Area through the purchase of land from willing sellers because publicly-owned natural areas allow all people to enjoy nature and engage in outdoor recreation. I agree with the Conservation Map's emphasis on conserving wetlands and forested bottomlands. Wetlands provide vital services to our planet by filtering water and reducing flooding. If the Service can convert marginal farmland into a rich wetland through buying land from willing sellers, I believe that is a good use of tax dollars. The map's emphasis on connecting existing conservation lands with the Refuge is logical. Connecting these conservation areas will provide more habitat for migratory birds and other animals. I support conserving rare black oak savannas and other habitats on the map that support threatened and endangered species. We must preserve these habitats and species for future generations. While private owners can certainly preserve habitat and steward land, I value publicly-owned land that is accessible to all. I encourage the Service to highlight on the map that land will only be bought from willing sellers, and that the public will have access to Refuge land. Also, as funds allow, I feel the Service should build and staff a Kankakee National Wildlife Refuge and Conservation Area Welcome Center so visitors can access restrooms and water. I encourage the Service to continue meeting with the local community that will be impacted by the Refuge. I believe that the Service and local communities can work together towards the goal of protecting both the environment and the community's interests. I encourage the Service to work with the community so that any eco-tourists are aware of locally-owned businesses that would welcome more customers. Thank you for this opportunity to provide input as the USFWS develops its Land Protection Plan for the Kankakee Refuge. Sincerely, James Mueller 0S062 Evans Ave Wheaton, IL 60187 jameswmuellercpa@sbcglobal.net 6302605966

I encourage the Service to continue meeting with the local community that will be impacted by the Refuge. I believe that the Service and local communities can work together towards the goal of protecting both the environment and the community's interests. I encourage the Service to work with the community so that any eco-tourists are aware of locally-owned businesses that would welcome more customers. Thank you for this opportunity to provide input as the USFWS develops its Land Protection Plan for the Kankakee Refuge. Sincerely, Guy Lentini 4629 Wolf Rd Western Springs, IL 60558 guymy1972@gmail.com 7087057996

Dear Jeanne Holler, Dear U.S. Fish and Wildlife Service, Thank you for the opportunity to comment on the Conservation Opportunities Map for the Kankakee National Wildlife Refuge and Conservation Area. I support the establishment and expansion of the Kankakee National Wildlife Refuge and Conservation Area through the purchase of land from willing sellers because publicly-owned natural areas allow all people to enjoy nature and engage in outdoor recreation. I agree with the Conservation Map's emphasis on conserving wetlands and forested bottomlands. Wetlands provide vital services to our planet by filtering water and reducing flooding. If the Service can convert marginal farmland into a rich wetland through buying land from willing sellers, I believe that is a good use of tax dollars. The map's emphasis on connecting existing conservation lands with the Refuge is logical. Connecting these conservation areas will provide more habitat for migratory birds and other animals. I support conserving rare black oak savannas and other habitats on the map that support threatened and endangered species. We must preserve these habitats and species for future generations. While private owners can certainly preserve habitat and steward land, I value publicly-owned land that is accessible to all. I encourage the Service to highlight on the map that land will only be bought from willing sellers, and that the public will have access to Refuge land. Also, as funds allow, I feel the Service should build and staff a Kankakee National Wildlife Refuge and Conservation Area Welcome Center so visitors can access restrooms and water. I encourage the Service to continue meeting with the local community that will be impacted by the Refuge. I believe that the Service and local communities can work together towards the goal of protecting both the environment and the community's interests. I encourage the Service to work with the community so that any eco-tourists are aware of locally-owned businesses that would welcome more customers. Thank you for this opportunity to provide input as the USFWS develops its Land Protection Plan for the Kankakee Refuge. Sincerely, Elizabeth Roberts 4635 N Damen Ave Chicago, IL 60625 robertsliz9@gmail.com 7739353190

While private owners can certainly preserve habitat and steward land, I value publicly-owned land that is accessible to all. I encourage the Service to highlight on the map that land will only be bought from willing sellers, and that the public will have access to Refuge land. Also, as funds allow, I feel the Service should build and staff a Kankakee National Wildlife Refuge and Conservation Area Welcome Center so visitors can access restrooms and water. I encourage the Service to continue meeting with the local community that will be impacted by the Refuge. I believe that the Service and local communities can work together towards the goal of protecting both the environment and the community's interests. I encourage the Service to work with the community so that any eco-tourists are aware of locally-owned businesses that would welcome more customers. Thank you for this opportunity to provide input as the USFWS develops its Land Protection Plan for the Kankakee Refuge. Sincerely, Susan Hollander 414 S Windmere Cir Matteson, IL 60443 hollandersmsm@yahoo.com 7736480362

Dear Jeanne Holler, Dear U.S. Fish and Wildlife Service, Thank you for the opportunity to comment on the Conservation Opportunities Map for the Kankakee National Wildlife Refuge and Conservation Area. I support the establishment and expansion of the Kankakee National Wildlife Refuge and Conservation Area through the purchase of land from willing sellers because publicly-owned natural areas allow all people to enjoy nature and engage in outdoor recreation. I agree with the Conservation Map's emphasis on conserving wetlands and forested bottomlands. Wetlands provide vital services to our planet by filtering water and reducing flooding. If the Service can convert marginal farmland into a rich wetland through buying land from willing sellers, I believe that is a good use of tax dollars. The map's emphasis on connecting existing conservation lands with the Refuge is logical. Connecting these conservation areas will provide more habitat for migratory birds and other animals. I support conserving rare black oak savannas and other habitats on the map that support threatened and endangered species. We must preserve these habitats and species for future generations. While private owners can certainly preserve habitat and steward land, I value publicly-owned land that is accessible

to all. I encourage the Service to highlight on the map that land will only be bought from willing sellers, and that the public will have access to Refuge land. Also, as funds allow, I feel the Service should build and staff a Kankakee National Wildlife Refuge and Conservation Area Welcome Center so visitors can access restrooms and water. If the Service can convert marginal farmland into a rich wetland through buying land from willing sellers, I believe that is a good use of tax dollars. The map's emphasis on connecting existing conservation lands with the Refuge is logical. Connecting these conservation areas will provide more habitat for migratory birds and other animals. I support conserving rare black oak savannas and other habitats on the map that support threatened and endangered species. We must preserve these habitats and species for future generations. While private owners can certainly preserve habitat and steward land, I value publicly-owned land that is accessible

to all. I encourage the Service to highlight on the map that land will only be bought from willing sellers, and that the public will have access to Refuge land. Also, as funds allow, I feel the Service should build and staff a Kankakee National Wildlife Refuge and Conservation Area Welcome Center so visitors can access restrooms and water. I encourage the Service to continue meeting with the local community that will be impacted by the Refuge. I believe that the Service and local communities can work together towards the goal of protecting both the environment and the community's interests. I encourage the Service to work with the community so that any eco-tourists are aware of locally-owned businesses that would welcome more customers. Thank you for this opportunity to provide input as the USFWS develops its Land Protection Plan for the Kankakee Refuge. Sincerely, Harmon Greenblatt 2172 Royal Ridge Dr Northbrook, IL 60062 harmongreen@comcast.net 8474311328

Kankakee NWR and Conservation Area

Subject: Kankakee NWR and Conservation Area

Dear Mrs. Holler,

I am an enthusiastic supporter of the USFWS Kankakee NWR and the natural lands that they and other conservation organization protect in the area.

As a paddler that enjoys the trip from the state line bridge to Momence a couple times each year at least, I would appreciate an increase in the amount of publicly accessible ground along the river for getting out and enjoying. As well as an increase in water quality if more low lying lands that flood frequently could be vegetated to improve water quality. Its a special area, and a shame what the state of Indiana did to the river.

As a nature lover, I enjoy getting out an exploring areas in both Newton County, IN and Kankakee and Iroquois Counties in Illinois. The Kolar Savanna unit has a great collection lady tress orchids among the moss and Scleria and other sedges that area treat. Connecting this piece of land with Willow Slough to the east and to the The Nature Conservancy's Mskoda and Big Dune to the northwest would be an incredible legacy to leave to the next generation.

I understand that there are passionate voices that are threatened by the presence of conservation organizations and change within the footprint of the acquisition area and believe that the stated goal of working with willing sellers is the best way to move forward to acquire the lands. But as someone that has lived in Newton County and saw the county passing ordinances forbidding the TNC from acquiring more land (which was obviously unconstitutional and found so), to the county now putting up billboards promoting people to come see the prairie and bison at the TNC's Kankakee Sands, I firmly believe that the best long term solution for people, short and long term is for the amount of conservation land to increase in the area. I welcome the USFWS, TNC and other conservation organizations efforts to improve my home through management, acquisition and restoration of natural lands.

Thank you for your efforts.

Opposition of Kankakee national wildlife refuge and conservation area

Christine Doud <user@votervoice.net>

Subject: Opposition of Kankakee national wildlife refuge and conservation area

Dear U.S. FWS Holler, My name is Chris Doud and I am a lifetime resident of Momence. My town as well as Pembroke are included in the Kankakee national wildlife refuge and conservation area. I am against the proposed refuge. John Rogner stated to our mayor and congresswoman Kelly's assistant Rick Bryant if they saw opposition they would not go forward with the refuge. USFWS has received strong opposition from Momence and you still choose to move forward. Congresswoman Kelly has now released two letters stating her opposition against the proposed Kankakee national wildlife refuge and conservation area. What you are doing is nothing more than a landgrab. Sincerely, Christine Doud 3539 N Vincennes Trl Momence, IL 60954 dood1@sbcglobal.net

Subject: Wildlife Refuge

Dear U.S. FWS Holler, The wildlife refuge proposed for Kankakee and Iroquois counties is not needed or wanted by the residents in its footprint. Without support from the local residents why go forward. It appears that promises made at other refuges have been broken. The local people do not trust any government officials that support this project. The impact on the local economy is my greatest concern. It is already an area with high poverty rates. Removing land and buildings from the tax rolls that support local governments and schools would be devastating to their finances. Agriculture would be severely damaged by adjoining land that reverts to wetlands. The need for drainage on these soils is critical for production. The effected community has a significant minority population. It defies logic to me to disrupt these lives in such a manner. The community needs industry and jobs, not closures and restrictions. Sincerely, Randy Poskin PO Box 14 Ashkum, IL 60911 randyjposkin@comcast.net

Subject: Kankakee National Wildlife Refuge

Dear Ms. Holler,

I am so excited about the Kankakee National Wildlife Refuge finally being open! I have been a donor to this cause for many years. I like the idea that the refuge properties have been acquired from willing sellers, and think it would be great if farmers could be persuaded to turn their marginal lands into wildlife habitat. Hopefully they can be offered CRP payments to do this.

I like the idea of prioritizing river bottomlands and other wetlands. It will be a win-win situation for both wildlife and the people who love nature.

I hope we are able to purchase land to connect the different parts of the refuge. it is just amazing that there is such good habitat so close to the Chicago area! There isn't that much public land, at least in my part of the state, so I know many of us will enjoy this refuge so much!

Thank you,

Lisa Helgesen, Member and Donor

Subject: Kankakee National Wildlife Refuge and Conservation Area

Dear Jeanne Holler,

I wish to communicate my wholehearted support of the Kankakee National Wildlife Refuge and Conservation Area.

I believe the preservation of forested bottom lands and wetlands along the river will be beneficial for wildlife, provide access for hunting and fishing, help protect water quality, and provide natural areas for people who enjoy nature and outdoor recreation. This would be such a treasure to preserve for generations to come.

Thank you for your perseverance and efforts to provide quality of life for future generations.
