1 Underlined packs are counted as breeding pairs toward recovery goals.

2 Excludes wolves killed in control actions to address livestock depredation and lawful public harvest.

3 Does not include pups that disappeared before winter.

4 Collared wolves that became missing in 2011.

5 Agency lethal control whether under state or federal regulations. Includes wolves killed by private citizens to defend livestock or under terms of a kill permit.

6 Includes only domestic animals confirmed killed by wolves.

7 Pack did not exist on Dec. 31 2011 and is not displayed on the map; see pack narrative.

8 Number legally harvested by humans in 2011.

9 Minimum number of wolves presumed present at end of year using best available data collected throughout 2011; derived from spring/summer/fall ground detection data.

10 Reflects the number of wolves in documented Idaho packs listed in Tables 3a, 3b, and 3c that were not observed or included in the "Min. Estimated Pack Size Dec 2011" column, plus additional wolves above and beyond those reported in Misc./Lone Wolves category that could not be accounted for as a result of mortality and/or depredations that occurred outside of territories of documented packs.

Border pack shared with adjacent state or province; dens in Idaho.

[X] Documented wolf mortality from Idaho pack not tallied in this table that occurred in adjacent state and counted towards that respective state's harvest quota.
