

Jones Hole National Fish Hatchery

March 2020 Monthly Report

Staff	
Project Leader	Vacant
Fish Biologist	Travis Anderson
Biological Science Technician	Kyle Trendera
Seasonal Biological Science Technician	Vacant
Maintenance Mechanic	Vacant

1. Fish Production:

Outside				
Species	Number	Fish/lb.	Length (inches)	Weight (lbs)
19BLCUTUT1	221,205	5.90	7.71	37,492.37
19BLCUTUT2	20,459	8.97	6.70	2,280.82
19BRCUTWY1	170,164	11.70	6.14	14,543.93
19BRCUTWY2	45,803	15.02	5.65	3,049.47
19KSAWY1	336,073	213.18	2.50	1,576.48

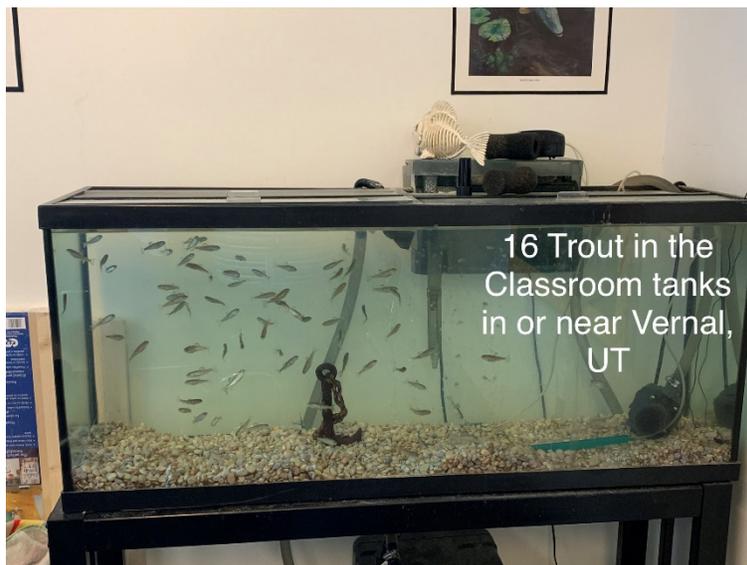

Inside				
Species	Number	Fish/lb.	Length (inches)	Weight (lbs)
19KSAWY2	138,715	397.15	2.03	349.28
19MCDEN	31,832	278.03	2.08	114.49
19TIGERWY	15,591	256.59	2.14	60.76

2. Notable Hatchery Events:

- Splitting some fish from raceway D10 into D9. Also, split fish from raceways A6 & A7 into raceways A1-A5.
- Special thanks to SCA Kyle Colburn (pictured above) and Animal Caretaker, Wayne Hamilton from Dworshak National Fish Hatchery, for assisting the hatchery staff here at Jones Hole National Fish Hatchery this month.

3. Outreach/Education:

4. Other Notable Items:

Happy Birthday Department of the Interior!

Biological Science Technician Kyle

Trenda visited the DOI

Headquarters in Washington DC on 3/3/2020, while attending Fisheries Academy course at NCTC.

5. Upcoming Events:

- Spray marking Bear Lake Bonneville Cutthroat trout for Strawberry Reservoir, by the Utah DWR.
