

SAVE THE DATE!

YOU'RE INVITED TO AN
EDUCATIONAL BIRD BANDING

STATION:

EDUCATORS - Want to gain a better understanding about Nebraska birds and how to integrate them into your curriculum?

A Flying WILD workshop will be offered later in the fall. Participants will:

- Obtain Flying WILD guide and other valuable resources
- Learn how to use birds as an educational tool
- Stay tuned for Dates

Audubon's Rowe Sanctuary
44450 Elm Island Road
Gibbon, Nebraska
Weekday mornings
from Sept. 4th - Sept. 21st 2012

Educational banding station programs are **FREE**
Designed for students in grades 3-6
Approximately 2.5 - 3 hours in length

This program will be offered
on a first come, first served basis.

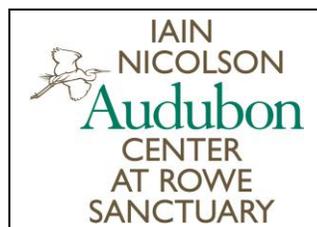

Students and teachers will have the opportunity to observe scientific data collection first hand, in addition to learning about bird adaptations, bird habitats, conservation, bird behaviors, and migration.

Best of all, students will have opportunities to see LIVE birds in the hand, explore the world of birds on a bird hike, and experience several other hands-on activities related to the birds of Nebraska.

Please contact Jeanine Lackey at jeanine_lackey@fws.gov or (308)382-6468 ext. 14 if you have any questions about the program or to register.

****Travel Scholarships Available!****

If interested, please contact Jeanine for more information.

The Educational Banding Station program can assist you in teaching the following Science Standards:

- Students will identify and justify the necessity of specific physical characteristics of animals (e.g. size, weight, surface covering, color).
- Students will compare/contrast habitat of animals
- Students will identify adaptations that aid in an animal's survival (e.g. seasonal changes, special body parts, special behaviors).
- Students will design and justify a fictional animal in its appropriate ecosystem.
