APPENDIX A

Project Area Photographs & Figures
Figure 1 Looking upstream at the western spillway of Rattlesnake Brook Dam.

Figure 2 Eastern spillway of Rattlesnake Brook Dam.
Figure 3 Surface flow traversing floodplain from breach in eastern portion of Dam.

Figure 4 Looking upstream of Rattlesnake Brook Dam at the impoundment.
Figure 5 Looking upstream from the estuary at the new box culvert under Narrows Road.

Figure 6 Looking upstream at the western channel of Rattlesnake Brook from just upstream of Narrows Road.
Figure 7 2014 Aerial photo of Rattlesnake Brook Restoration Project area in infrared color by USDA NAIP.
Figure 8 Contributing watersheds to the Rattlesnake Brook Dam.
Figure 9 MMI existing water surface profile output from HEC-RAS for base flow up through the 100-yr storm event in the western channel of Rattlesnake Brook (MMI 2014).

Figure 10 MMI predicted water surface profile output from HEC-RAS for base flow up through the 100-yr storm event in the western channel of Rattlesnake Brook (MMI 2014).
