UNDER SECRETARY CARR OF INTERIOR TO DELIVER KEYNOTE ADDRESS
AT WORLD TUNA MEETING IN CALIFORNIA

Under Secretary James K. Carr of the Department of the Interior has accepted an invitation to deliver the keynote address at the opening session of the 13-day United Nations' Food and Agriculture Organization World Scientific Meeting on the Biology of Tunas and Related Species, July 2, 1962, at the Art Center in La Jolla, Calif.

Other speakers at the opening session of the meeting will be William E. Warne, Director, Department of Water Resources, State of California, and Dr. D. B. Finn, Director, Fisheries Division, FAO, Rome, Italy. Mayor Charles Dail of San Diego, Calif., will welcome the conferees and distinguished guests.

The World Tuna Meeting is a major event in the history of scientific fishery research. About 200 to 250 scientists from 15 to 20 governments and private institutions engaged in studying tunas will participate in the conference. The biological and oceanographic research programs now being conducted, often independently, by the many nations with important tuna fisheries will be discussed, and consideration will be given to coordination of such work.
