

US Fish and Wildlife Service Internship Opportunity

Location:	Eastern Massachusetts National Wildlife Refuge Complex, Sudbury, MA
Position Title:	Biological Internships – Invasive Plant Control
Duties:	Map and monitor invasive species in upland and wetland habitats, control invasive species through mechanical removal and herbicide application; coordinate volunteers in invasive plant removal and mapping; evaluate current control methods; enter and analyze data; maintain facilities; and conduct routine office work.
Qualifications:	Ability to work with the public in a professional manner; ability to work with minimal supervision and in a group; a valid driver's license; ability to hike long distances over rough terrain carrying 25 pounds; and enthusiasm. Past experience in plant identification; GPS and GIS; and an academic background in botany, wildlife, zoology, or related fields are preferred.
Salary:	Stipend is \$200-275/week depending on experience and funding and includes free dormitory style housing in Sudbury.
Employment Details:	The internships are for 3-6 months with a start date between April and mid-May.
How to Apply:	Send a letter of interest, resume, and contact information for 3 references to: Eastern Massachusetts NWR Complex, Attn: Eileen McGourty, 73 Weir Hill Road, Sudbury, MA 01776.
Closing Date:	February 15, 2011. Hiring WILL begin before the closing date so applying earlier is strongly recommended.
