

The Northeast Region presents...

2012 Science Seminar Series

The Science Seminar Series takes place in the Northeast Regional Office, Hadley, MA, on the second or fourth Thursday of each month from 12:00 noon - 1:00 p.m.

Presentations are also available via broadcast or webinar at <http://www.fws.gov/northeast/science/seminars>.

January 26

“Effects of Sealevel Rise and Altered Storminess on Piping Plover Breeding Habitat Along the U.S. Atlantic Coast”

Sarah Karpanty, Assistant Professor, Department of Fish and Wildlife Conservation, Virginia Tech

February 23

“Providing Science and Tools in Support of the North Atlantic Landscape Conservation Cooperative: Designing Sustainable Landscapes for Wildlife”

Kevin McGarigal, Professor, Department of Environmental Conservation, UMass Amherst

March 5

"Conservation Delivery and Building Biological Capacity: SHC in a Transformational U.S. Fish and Wildlife Service"

Will Meeks, Project Leader, Region 6 Habitat and Population Evaluation Team Office, U.S. Fish and Wildlife Service

March 22

“Modeling Population Persistence Across the Streamscape”

Ben Letcher, Population Ecologist, Silvio O. Conte Anadromous Fish Research Center, USGS

April 12

"Simple Drag Force and Energy Calculations for Fish Passage Through a Model A Steeppass"

Katey Plymesser, Professional Engineer, PhD Candidate, Department of Civil Engineering, Montana State University

April 26

“Radar Analysis of Fall Migration Stopover Sites in Region 5”

Jeff Buler, Assistant Professor of Wildlife Ecology, University of Delaware, and Deanna Dawson, Wildlife Biologist, USGS Patuxent Wildlife Research Center

May 10

“The National Wildlife Refuge System's Inventory and Monitoring Initiative in the Northeast Region”

Bill Thompson, Northeast Region Inventory and Monitoring Coordinator, U.S. Fish and Wildlife Service

If you have any questions about or suggestions for the Science Seminar Series, please contact Megan Nagel at megan_nagel@fws.gov.
