Hatcheries represent an important component to the sustainable future of fish stocks in the Pacific Northwest. Venues like the Northwest Fish Culture Conference 2006 provide opportunities for fish culturists to share ideas about techniques used to meet sustainable fisheries goals. Meeting participants will have the opportunity to attend presentations about advancements and observations in:

1. Sustainable Fish Culture
2. Hatchery Operations/ New Technology
3. Fish Health and Nutrition
4. Fish Culture Equipment and Innovations
5. Miscellaneous Topics in Fish Culture

Along with great presentations, attendees will be able to visit with vendors and exhibitors during breaks and socials, to ensure great information and products are taken back to each operation.
