This will be a roundtable discussion with Paul Henson and staff from the La Grande Fish and Wildlife Service office regarding the announcement by the Fish and Wildlife Service, that the greater sage-grouse do not require protections under the Endangered Species Act.

This discussion will focus on:

- How the finding affects participation in the *Programmatic Candidate Conservation Agreement with Assurances (CCAA)* that are available for private landowners in the seven sage-grouse counties in Oregon.
- Ongoing CCAA enrollment opportunities and the benefit to participating landowners.
