TOTAL FY2007	\$3,680,420			

Major Maintenance and Construction Costs

The operating budget for the Leavenworth Complex facilities presented above includes cyclical maintenance but does not cover all maintenance costs. The following lists the total cost of major maintenance and construction projects for each facility for the past five years FY2001-2006. Funding for these projects was outside of the base Bureau of Reclamation budget.

Major Maintenance and Construction Projects Costs: FY2001-2006

Leavenworth NFH:	\$992,449.00
Winthrop NFH:	\$502,989.00
<u>Entiat NFH:</u>	<u>\$217,020.00</u>
TOTAL:	\$1,712,458.00

Note: Leavenworth NFH received \$4 million from the Bureau of Reclamation in FY2005 for the intake rebuild project. Because the project was not completed, the \$4.0 million is not included in the list of completed major maintenance and construction projects shown above. However, the money is included in the backlog of projects proposed to be addressed between 2007 and 2016, shown below.

Major Maintenance and Construction Backlog: FY2007-FY2016¹

Leavenworth NFH:	\$29.3 million
Winthrop NFH:	\$3.2 million
<u>Entiat NFH:</u>	<u>\$12.7 million</u>
TOTAL:	\$45.2 million

¹These projects are subject to funding availability. Estimates derived from the RAX proposed construction project list for the Leavenworth NFHC for 2007-2016.
